

## Outlaws Orbiting Of Arms

### Committee Approves Proposal

UNITED NATIONS, N.Y. (AP)—A resolution outlawing the orbiting of nuclear weapons in outer space was approved unanimously today by the General Assembly's main political committee.

The proposal — sponsored by the United States, the Soviet Union and 15 other countries — now goes to the 111-nation assembly itself where approval is expected Thursday.

While the U.N. action is not legally binding, it is regarded as a moral obligation since the United States and the Soviet Union drafted the plan and voted for it.

Actually it is in the form of an appeal to all countries to refrain from placing in orbit objects carrying nuclear weapons or any weapons of mass destruction, or from installing such weapons in outer space in any manner.

The resolution, first tangible Cold War breakthrough since the limited nuclear test-ban treaty, stems from an agreement announced Oct. 3 after talks here by Secretary of State Dean Rusk, Soviet Foreign Minister Andrei A. Gromyko and British Foreign Secretary Lord Home.

All members of the 18-nation Geneva Disarmament Conference except France joined in sponsoring the proposal. France has boycotted the Geneva meetings.

The United States and the Soviet Union have conceded that the advantage of orbiting nuclear weapons in space is more psychological than military.

Introduction of the resolution highlighted the opening of the committee's disarmament debate Tuesday.

## Homecoming Parade Set For Friday

One of the largest Smith-Cotton homecoming parades ever to march down Ohio street is scheduled to take place Friday afternoon in Sedalia. The parade, consisting of 18 different entries and including 11 floats, will begin at Smith-Cotton High School at 3 p.m.

It will go north on Massachusetts to Seventh, west to Ohio, north on Ohio to Main, west to Osage, south to Seventh, east to Massachusetts, and then south back to Smith-Cotton where it will disband.

John Lamy, parade chairman, stated that the parade will line up in the following order:

Spiz drill team, Senior High Band, queens (three cars), football boys truck, Future Homemakers, eighth grade class float, eighth grade homeroom float (112), eighth grade homeroom float (108), eighth grade homeroom float (Little Theater), Junior High Band, freshmen float, sophomore float, Hubbard Band, junior float, Girls' Athletic Association float, senior float, Spiz float.

Many of the floats in the parade will have as their themes the idea that the Rolla Bulldogs, S-C's homecoming gridiron foe Friday night at Jennie Jaynes Stadium, will be trounced by an eager group of hard fighting "Tigers."

S-C student organizations have been preparing for weeks for the parade and for the crown-

## Mayor, Union Heads To Confer Saturday

Mayor L. L. Studer said today that representatives of Sedalia's craft unions have requested meeting with him and the session will be held at 9 a.m. Saturday in the mayor's office.

Francis Rudd, business agent for Teamsters Local Union No. 534, requested the meeting on behalf of the unions. Studer said.

Rudd did not state the purpose of the meeting to Mayor Studer, but the discussion is expected to concern the effect of ceasing the issuing of sewer permits on the craft unions and building industry in the city.

LAST RITES FOR 'COPTER CRASH VICTIM —A priest gives last rites to one of the victims beside wreckage of passenger helicopter that crashed at New York's Idlewild airport Tuesday.

Six persons perished, and some bodies are covered in foreground. Craft was one of a fleet used to transfer passengers among New York City's three major airports. (AP Wirephoto)

## Elect Erhard As Successor To Adenauer

### 279-180 Vote For New Chief Of West Germany

BONN, Germany (AP)—Ludwig Erhard, who directed West Germany's miraculous postwar economic recovery, was elected chancellor today to succeed Konrad Adenauer.

West Germany's lower house, the Bundestag, voted 279-180 to elevate the 66-year-old Erhard to the top government post left vacant by Adenauer's reluctant retirement Tuesday. There were 24 abstentions and one invalid vote.

Erhard needed 250 votes to win. His Christian Democrats were joined by their partners in the coalition government, the Free Democrats. The Socialists voted against him.

The chancellor will go before the Bundestag later today to take the oath of office. He will present his new Cabinet to President Heinrich Lübke Thursday.

Erhard has been economics minister throughout Adenauer's tenure as West Germany's only chancellor since the Federal Republic was created in 1949. Adenauer made no secret that he felt Erhard incapable of filling his shoes. He retired at 87 only under extreme pressure from other leaders of his party.

Erhard has promised to follow Adenauer's basic foreign policies of support for the Western Alliance, demand for German reunification and reconciliation with France.

But he is expected to show less resistance to U.S. efforts to ease cold war tensions and to open up the European Common Market to trade with the rest of the free world. That will be the big difference.

## Armistice Day Plans By VFW

VFW Posts Nos. 2591 and 3189 from Sedalia, and American Legion Posts No. 359 from Houston and No. 491 from Green Ridge met Tuesday night at the local VFW Hall to make plans for the Nov. 11 Armistice Day program and parade.

Committees for the various activities were appointed, and invitations were extended to area high schools to bring their bands out to participate in the parade. Invitations were also extended to numerous organizations to enter floats in the parade. The parade route will be announced at a later date. Also invited were all of the veterans organizations and saddle clubs in the surrounding area.

It was announced that Gold Star Mothers, War Mothers and War Dads will take part in the ceremonies in front of the Doughboy statue at the courthouse, which will start at 11 a.m. on Veterans Day. A speaker for the occasion will be selected, according to local VFW officials.

The next local VFW committee meeting will be held at 8 p.m. Oct. 29 at the VFW Hall to discuss further plans.

## Some Harvesting Two Weeks Earlier Than Previous Years

Ideal weather conditions in Central Missouri have enabled farmers to harvest corn, beans and milo about two weeks earlier than in previous years.

The harvest should be completed by the end of this month, according to Dick Laffoon, farm placement representative for the Sedalia offices of the Division of Employment Security.

Laffoon also noted that his office has openings for married farm hands.

The area is badly in need of rainfall, Laffoon said, to fill ponds and wells, and to revive pastures.

## United Fund Report Meet Is Scheduled

A first report meeting of the United Community Fund will be held at a 7:30 o'clock breakfast in the Ambassador room of Hotel Bothwell Friday morning.

J. S. Simon, president of the UF board, requests all board members and volunteer workers of the 1963 campaign attend. All division chairmen are expected to report on progress of their respective solicitations and turn in all gifts or pledges collected to date.

Simon stated that first reports turned in this week included the industrial division of which James T. Denny is chairman. "This was a big boost to the drive," he said, "and represents a portion of the solicitation made at the Missouri Pacific shops."

"The average gift from each employee amounted to \$17.85 from each employee solicited,"

## Cable Found Guilty By Jury Tuesday

A Circuit Court jury, after deliberating just under two hours Tuesday, found Carl Lee Cable, 61, 805 West Main, guilty as charged of receiving stolen property, and assessed punishment at a three-month term in the county jail. The trial opened Tuesday morning before Judge Frank Hayes.

Cable was charged with receiving tires stolen the night of April 19 from Orscheln Farm & Home Supply, Inc., from the firm's warehouse at Grand and the Missouri Pacific railroad tracks.

William F. Brown represented Cable and in his defense contended Cable did not realize the tires he had purchased from several young Sedalia men were stolen. Prosecuting Attorney J. R. Fritz in his summation called on the jury to deliver a conviction and assess penitentiary time. He said if the "fences" are put out of business in Pettis County, the thieves will also be thwarted.

Patrolman Lester Williams of the Sedalia Police Department, was recalled to the stand when the trial resumed at 1 p. m. Tuesday afternoon, but the proceedings immediately hit a snag when the state sought to admit as evidence 17 automobile tires, which had been recovered by the Sedalia Police Department from Cable's garage. Williams was on the stand just a few minutes before the noon recess.

Defense counselor Brown objected to admission of the 17 tires as evidence as the state had established in prior testimony only that Copas, Naylor and Siegel had sold nine tires to Cable.

Judge Hayes sustained Brown's

# Fair Share Paying Method

(EDITOR'S NOTE: This is the eleventh in a series of articles concerning a major issue facing Sedalia voters—the Sewer Bond Issue. Various aspects and ramifications of the improvement program, what is to be done with passage of the issue, what happens if it fails, views of state and federal government and other information about the issue are covered in this series.)

By W. D. HILL  
News Editor, The Democrat

With the exploration of the types of bonds that could be issued for Sedalia's sewage treatment plants improvements in Monday's article in this series, comes the obvious question of what revenue bonds would cost taxpayers as compared with general obligation bonds which are proposed by City Council?

E. B. Smith, chairman of the city's finance committee, first estimates that cost under general obligation bonds will be around \$10.50 per year for the average home owner, or less than \$1 per month. The average home owner is defined as one whose property is assessed—not valued—at \$3,000.

Smith says those persons whose property assessment will run higher than the mean figure of \$3,000 can estimate their

share of cost for sewage treatment plants improvements at \$35 per \$100 on the amount they are assessed on the tax books.

If revenue bonds had been the type chosen by City Council and charges made to taxpayers on the basis of water consumption, or sewage dumpage, as means of determining how much each home owner, business or industry used the sewage system, costs to taxpayers would have been higher, officials say.

Revenue bonds for sewage facilities improvements in neighboring towns have cost individual home owners around \$5 per month or \$60 per year, as compared with \$10.50 per year or less than \$1 per month on general obligation bonds. However, it has been pointed out that the major difference is the terms of such bonds.

It's like financing a home or car, officials say, the longer the term of the loan, the more you pay and the more interest you pay in the end. Interest on revenue bonds is higher than that on general obligation bonds and the term usually is longer, although it need not be, according to law. The \$5 a month cases have been on short term loans.

Officials contend selection of general obligation bonds is in the best interest of all concern-

ed from the stand point of lower cost over a long period of time—20 years.

This council action came about despite the fact that revenue bonds are easier to pass because of the four-sevenths majority needed for passage as compared to a two-thirds majority needed for general obligation bonds.

In some quarters revenue bonds are still getting an airing as the type bonds council "should" have chosen, "because business and industry using the sewage treatment facilities would pay their fair share if revenue bonds were passed," some contend.

Under the taxation plan, council proposes, as a means of paying off the improvement bonds, business and industry will be paying their fair share, the Citizens Sewer Bond Issue Committee notes.

"If a particular business or industry's assessed valuation is \$3,000, the taxation for sewage improvements under the bond issue will cost the firm the same as the 'average' home owner—about \$10.50 per year," the committee says. "But, a business or firm with an assessed valuation of, say \$90,000, the fair share will be 30 times that of the 'average' home owner or approximately \$315."

## Lend Support To Cutting Rights Bill

### Bobby Kennedy Wants Original Recommendation

WASHINGTON (AP) — The chairman of the House Judiciary Committee gave full support today to administration efforts to cut some provisions from the sweeping civil rights bill.

Rep. Emanuel Celler, D-N.Y., told the committee he would do all in his power to get bipartisan support for the milder proposal recommended by the administration in June.

A judiciary subcommittee added several highly controversial provisions to the administration program, however, to produce the bill now before the committee.

Atty. Gen. Robt. F. Kennedy urged the committee Tuesday to restore the measure substantially to administration's recommendations, to increase its chances of passage.

Celler spoke as the committee prepared to question Kennedy further.

Celler was chairman of the judiciary subcommittee that greatly expanded the original proposals.

## Council to Meet On Sewer Bond Issue Ordinance

Sedalia's City Council meets tonight at 7 p.m. in special session to enact an ordinance calling for an election Nov. 12 to authorize a \$3-million bond issue for sewer works improvements.

Mayor L. L. Studer called the special session last week to allow ample time for advertisement of the bond election. State law requires the issue be advertised once a week for three weeks prior to the election.

A notice of the special meeting was served individually on each of the city councilmen Tuesday by Sedalia police officers. All the councilmen except E. B. Smith indicated they will be present tonight on the certification of service. Smith is out of town and not expected back until the weekend.

Wives of two councilmen signed the certification on behalf of the husbands, indicating they will be present. These councilmen were Walter Jessee, who was a member of a Circuit Court jury Tuesday; and J. C. Griffin.

Mayor Studer said today no further business other than the election ordinance is on the council agenda.

## The Weather

Considerable cloudiness through Thursday with scattered thunderstorms. Only minor temperature changes with low tonight around 60. High Thursday in the mid-80s.

The temperature Wednesday was 63 at 7 a.m., and 74 at noon. Low Tuesday night was 63.

The temperature one year ago today was 79; low 50; two years ago, high 75; low 48; three years ago, high 69; low 46.

Lake of Ozark stage: 55.2 feet; 4.8 below full reservoir; down .1.

## Seek Missing Smithville Woman Here

Mrs. Patricia Willoughby, 20-year-old expectant mother and wife of Charles Willoughby, Smithville, Mo., reported missing from her home since Wednesday, Oct. 9, was believed to have been brought to Sedalia by a Sedalia night.

Frank McAllister, 2801 South Ohio, reported to police that he works in Kansas City and was returning home when he picked up a woman answering Mrs. Willoughby's description near LaMonte. He reported as they

Mrs. Willoughby

came toward Sedalia she requested to get out of the car at Third and State Fair Blvd., but when he drove past Second and State Fair she asked to get out of the car there.

According to McAllister he let the woman out of his car about 2 o'clock Tuesday morning, Oct. 10, on State Fair Blvd.

McAllister was contacted early Wednesday morning by a Kansas City detective who

(Please turn to page 4, column 3)

# Fair Share Paying Method

The committee also notes that "regardless of the type bonds issued, assessed valuation will determine the amount paid by individuals, businesses and industry."

On the other side is discussion about charging taxpayers according to the amount of water consumed. This method, experts quickly reply, would not be a fair evaluation of what is dumped into the sewer system as a considerable amount of water used never finds its way into the sewer.

It was pointed out that water for gardens, lawns, car washings and other uses of water that never reaches the sewers, would make this method unfair to virtually all concerned.

Another point of discussion about the issue is the fact that general obligation bonds mean only taxpayers (principally home owners) will bear the full cost of improving the facilities and renters, although using the facilities, will not pay a cent. Proponents of the issue say that landlords take this in account in setting amounts of rent.

Councilman Smith notes that his estimate of \$.35 on the \$100 assessed valuation is based on first time-around passage of the issue, Nov. 12. "A one year delay, Smith predicts, "can increase cost of construction by six per cent."

# British Refuse Red Demand Then Move On Own Terms

## Convoy of Nine Vehicles Halted at Red Checkpoint

BERLIN (AP)—A British military convoy held on the Berlin Autobahn by the Russians today moved westward, a British spokesman announced.

The British spokesman said the convoy continued its interrupted journey "on our terms."

That meant the British refused the Soviet demand for the British soldiers to dismount to be counted.

The convoy of nine vehicles, carrying 28 men, was stopped by the Soviets at Babelsberg, their checkpoint just outside Berlin where a U.S. convoy was blocked last week.

It was kept waiting nine hours until the Russians gave up their insistence on men dismounting and lifted the barriers for it to proceed.

The convoy still had to go through a second Soviet checkpoint at Marienborn, at the border of West Germany on the western end of the superhighway.

It was still a question whether the Russians would repeat their delaying tactics at Marienborn.

The British said the Soviet blockade was deliberate and protested vigorously. The U.S. State Department had suggested the American convoy was held up by confusion at the local level.

The scene was the same for both incidents, the checkpoint at Babelsberg within sight of Berlin.

The halting of the convoy did not interfere with civilian traffic on the 110-mile autobahn between Berlin and West Germany.

It was understood that the Soviets demanded that the British soldiers get out of their vehicles and line up to be counted. The British convoy commander refused.

The Russians made the same demand of a U.S. convoy last week on the autobahn and the American commander similarly refused. A serious crisis resulted, but the Russians finally lifted their blockade.

## 'Evidence' In Bridey Murphy Case

PUEBLO, Colo. (AP) — Re-member Bridey Murphy?

Many people do, although whether this particular Bridey Murphy ever lived outside the dreams of a Colorado housewife under hypnosis is a matter for considerable argument.

Morey Bernstein, Pueblo businessman, student of parapsychology and author, insists she did. He said Bridey will be reborn again next year—in print.

Bernstein, who wrote "The Search for Bridey Murphy" nine years ago, said his new book will prove that Bridey was not a hoax and will supply new evidence for his contention that man's consciousness survives death.

Bernstein's long preoccupation with Bridey began in 1952 when a friend, Mrs. Hugh B. Tighe, agreed at a party to let him hypnotize her. Bernstein had been experimenting with hypnosis for 10 years before that.

While in deep hypnosis, Mrs. Tighe began describing in detail episodes in the life of Bridey Kathleen Murphy, including that she was born in Cork in 1789 and died in Belfast in 1964.

## Cooper's Space Ship Displayed in Capital

JEFFERSON CITY (AP) — The Faith 7, seared by the heat of its re-entry into the earth's atmosphere, will be on display in front of the Missouri Capitol for four days starting Thursday.

The mercury spacecraft in which Maj. Leroy Gordon Cooper orbited the earth 22 times is just as it was when it splashed down in the Pacific last May.

The spacecraft was manufactured by McDonnell Aircraft of St. Louis. It was trucked to Jefferson City from the NASA Manned Spacecraft Center at Houston, Tex. This is the third state Capitol where it has been on exhibition in its tour of all 50 states.

## Mobilization Decree Met With Vigor

### Algerians Flock To Barracks By The Thousands

ALGIERS (AP) — Thousands of Algerians streamed into army barracks today in answer to President Ahmed Ben Bella's general mobilization decree to meet the threat of war with Morocco.

The mobilization decree was issued Tuesday night after more fighting in the disputed outposts after two days of bloody skirmishes.

Ben Bella ordered all former soldiers — estimated to total 30,000 — to report for army service. At the same time efforts continued to negotiate a settlement of the dispute.

Those who answered the mobilization call included numerous young volunteers carried away by the officially whipped-up war fever. Many were clearly too young ever to have fought against the French.

Algerian sources said Ben Bella's call to arms was answered "with spontaneous enthusiasm." Several thousand men reported at the former French Orleans barracks in Algiers.

Despite the atmosphere of crisis, it seemed unlikely that the governments would allow the dispute to degenerate into war.

Mohammed Yazid, former Algerian information minister, and Slimane Hoffman, an aide of Defense Minister Col. Houari Boumediene, flew back to Algiers Tuesday night after a day of talks in Marrakech with King Hassan II of Morocco and other Moroccan leaders.

The two emissaries immediately went into conference with Ben Bella. They took off again at dawn to resume their talks in Marrakech.

There was no official word on the negotiations, but informed sources said little real progress had been made.

Reports from the Sahara said fighting had subsided.

## Biggest Fine Charged For Overweight

A fine of \$835 plus court costs of \$10.50 was paid Wednesday morning in Magistrate Court on behalf of Robert Lowell Schroeder, 202 South Prospect, who was charged with driving a truck overweight on a single axle by 9,000 pounds.

Judge Frank Armstrong said the fine was the largest ever assessed in the court.

Schroeder was halted Sept. 10 at the junction of Highway 50 and Route 127 by Highway Patrol Trooper R. W. Bruce.

According to the Missouri Uniform Traffic Ticket issued Schroeder, he was in the employ of the UPIC company, 615 East Fifth. He was hauling a load of roofing being used in connection with the Minuteman missile project, it was reported.

Schroeder was also ticketed for exceeding weight for which licensed by 5,430 pounds and having no Missouri chauffeur's license, however, he was fined only on the first charge.

Sedalia attorney William Gibson entered a plea of guilty on Schroeder's behalf and paid the total charge of \$845.50.

Overweight fines are set by state statute and judges are ordered to fine at the rate of two cents per pound for the first 500 pounds overweight, five cents per pound for the next 500 pounds and ten cents per pound for each additional pound.

## Ann Landers

Answers Problems Your

Dear Ann Landers: Why don't people keep their mouths shut when they don't know what they are talking about?

I am the mother of twin boys, eight years old. I had a very difficult pregnancy and almost lost my life when the twins were born. The doctor advised me against trying to have more children so my husband and I decided to adopt. It took two years before we were able to get our adorable little girl. Laurie is now five years old and what a joy!

Last week Laurie came home crying as if her heart would break. One of her playmates told her his mother said we couldn't possibly love her because they are of our own flesh and blood and she is not.

I tried to comfort the child and reassure her, but she hasn't been the same since. She seems withdrawn and unhappy. Can you suggest any way we can help her?—FURIOUS MOTHER.

Dear Mother: I trust (and hope) that Laurie had been told by you and your husband that she was adopted before the neighbor kid got to her. If not, perhaps this is part of the reason for her unhappiness.

Continue to give Laurie generous doses of love and attention. Let her know that as a chosen child she was special—and that you were lucky to get her because so many others wanted her, too.

Dear Ann Landers: Last year I wrote to you about a problem I was having with my husband. He agreed to do as you said and it worked out fine. Now we have another problem we'd like you to settle. Again he has promised to take your advice.

Our 8th wedding anniversary is coming up. It falls on the opening day of the hunting season. He wants to go hunting with the fellows. I say a wedding anniversary is a lot more important than hunting, and that he belongs home with me.

We get along a lot better than most of our friends and I would say our marriage is a good one. Please settle this because we've been talking about nothing else.

## Negro Loses A Bid For Mayor's Job

ALBANY, Ga. (AP) — A 45-year-old white segregationist has won the Democratic nomination for mayor of this racially troubled Southwest Georgia city where a Negro sought the office for the first time.

Attorney James V. Davis received 7,220 votes Tuesday, well over a majority of those cast in a record turnout, making a runoff unnecessary. Nomination in the primary means election.

Slater King, a Negro integration leader, was second with 2,547 votes.

The second white man in the race, architect Edward V. Jones, was third with 1,879 votes. He also is a segregationist and opposed formation of any biracial committees.

The outcome indicated little, if any, change in race relations in this city where more than 1,200 arrests were made during intermittent demonstrations the past two years.

Davis said he thought that "what will be done for the colored people will have to be done within the framework of segregation."

King, acting president of the Antisegregation Albany Movement, called for creation of a biracial committee to discuss grievances. None has been established.

King said he hoped the campaign would help politically of his race to think politically.

"I am really interested in freeing the minds of Negroes because many of them feel that no Negro should aspire for high office," he said.

King did very little active campaigning. He made only one television appearance. Davis and Jones concentrated on federal controls and taxes in appealing for votes.

The racial issue and clear, sunny weather brought a turnout of more than 11,500 voters.

Albany's 58,000 population includes about 24,000 Negroes. There are an estimated 4,600 Negroes among the 16,436 registered voters.

Two years ago a Negro candidate for a City Commission seat made it to the runoff and then was defeated.

## Guard Arrested After Fire In Children's Home

NEW YORK (AP)—A guard at a children's home on Staten Island was arrested on an arson charge today several hours after a fire forced about 350 boys to flee.

The guard ran into a blazing unoccupied building with a fire extinguisher and was carried out unconscious from smoke inhalation.

The guard, who recovered quickly, was quoted by officials as saying he had "problems at home" but did not know why he set fire to the four-story building.

None of the boys was reported injured. They fled from three dormitories at Mount Loretto, run by the New York City Catholic Charities. The fire, which for a time threatened the dormitories, was in the boys' section of the campus-like grounds.

## Says Cold War Now Contest of Economics

KANSAS CITY (AP) — The cold war has given way to a contest of economics, W. True Davis, newly appointed ambassador to Switzerland said Tuesday night.

Davis told a Veterans of Foreign Wars dinner audience that the refusal of President Charles DeGaulle of France to admit Britain to the European Common Market signaled the end of the cold war.

The concern now is not just with an East-West alignment, he said, but also with an alignment of northern, or Common Market, nations against a southern European grouping.

Davis is a veterinary medicine manufacturer from St. Joseph, Mo.

# Flora Grew Into Horror Of Nature

EDITOR'S NOTE—A tropical disturbance is formed and starts spinning westward over the Atlantic on Sept. 16, 1963, 3,000 miles southeast of Florida. It develops into Hurricane Flora, the most devastating storm recorded in the Caribbean area. The following traces its birth, growth and effects.

By BEN FUNK  
Associated Press Staff Writer

The day: Thursday, Sept. 26, 1963. The exact time: Unknown. The place: The tropical Atlantic, 3,000 miles southeast of the Florida coast.

The day is hot, sultry, oppressive. The wind blows in fitful gusts. The heaving sea is gray and sluggish as molten lead.

A whiff of warm, damp air rises from the sea, like smoke drifting up a chimney. Other air takes its place and is caught in the updraft. Very, very slowly, an air column grows.

Rising, the warm air expands and cools. The water in it condenses and falls. Heat is released, adding energy to the thing that has formed.

Affected by the spinning of the earth, the air begins to revolve around a hollow center.

More warm moisture is sucked up the chimney. The air spins faster.

Erratically, the darkening column begins to drift westward with the trade winds.

Orbiting over the South Atlantic on Sept. 26, the Tiro 7 weather satellite photographed a poorly organized circular motion in a cloud mass.

Forecasters mark this down as an "area of suspicion" and plan to keep an eye on it.

FRIDAY, SEPT. 27

1:30 p.m. Tiro 7 sends another picture of the same cloud mass. It has moved 400 miles westward.

For two days, there are no further reports. There is little ship traffic in that area.

SUNDAY, SEPT. 29

6 p.m. The captain of a ship 350 miles east of Trinidad reports he is encountering light squalls and rising seas. His barometer is falling.

A hurricane hunter plane is readied at Roosevelt Roads, Puerto Rico, for a flight the next morning.

MONDAY, SEPT. 30

10 a.m. The hurricane hunter thrusts his plane through the "wall of the eye" of a small but tightly wound and "very dangerous" hurricane. It is moving fast toward the island of Tobago.

Tobago has two hours to prepare. The eye of the hurricane reaches the coast at noon.

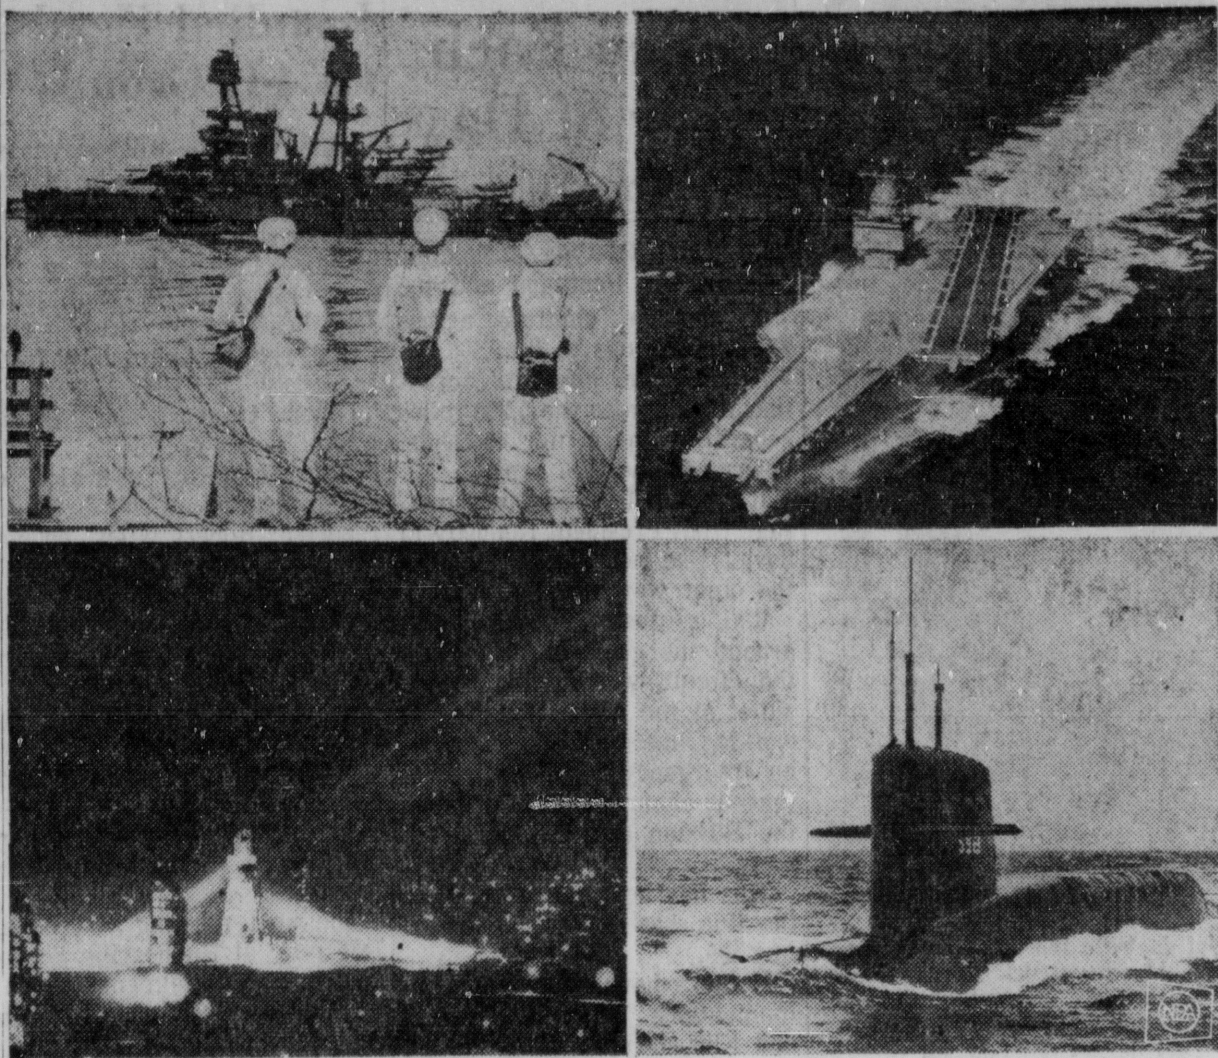

Houses collapse under the 100-mile-an-hour winds. Torrential rain triggers floods. Towering tides bury the beaches. Seventeen islanders die.

The hurricane is very small. Highest winds are to the north of the eye. Trinidad, 30 miles south, escapes serious damage.

TUESDAY, OCT. 1

In Haiti, the Negro nation on

## Ways to the Top—

Military observers hold that the way to progress through the ranks had traditionally been with battleship service; then aircraft carrier men had the advantage, followed by submarine experts. In days to come, astronauts may wield control of this branch of service. Depicted with the battleship, carrier and submarine is a night scene at Cape Canaveral prior to a space launch.

the island of Hispaniola, the sound of the sea is subtly changing. From far out comes a single long, low swell. It hits the shore of the Tiburon Peninsula with an unexpected boom. Slowly, another comes, and another. Flora, still far away, is growing more violent.

WEDNESDAY, OCT. 2

1 p.m. The waves are breaking high over the coast of Hispaniola. The weather remains calm. Wisps of cirrus clouds spread a pale, milky haze over the sky.

As the day goes on, the veil thickens. The sunset is spectacular, red and orange.

Midnight: A swirling breeze intrudes on the stillness and rustles the palm fronds in Haiti. The air is charged with electricity. Breathing seems difficult.

THURSDAY, OCT. 3

8 a.m. The wind gusts at 50 miles an hour. The sea is wild. A hard burst of rain comes and goes, to be followed by another. Huge swells bombard the coast and hurl foam far up the coral bluffs. From far out comes the thunder of drumming rain.

Natives cringe. Towns and villages built of mud, straw and tin offer no place to hide.

1 p.m. Two hurricane hunters criss-cross the storm at 10,000 feet. Sustained winds have reached 140 miles an hour, gusts 160.

2 p.m. Hurricane winds reach the south coast of the Tiburon Peninsula.

8 p.m. The wall of the eye, a solid barrier of water and wind whirling savagely in toward the calm center of the hurricane, crosses the coast between Aquin and Cotes de Fer.

Funneling down the canyons between mountain ranges, gusts reach 200 miles an hour.

Solid sheets of rain turn rivers

and streams into torrents. Crashing down the mountainsides, they push the crops, even the soil, into the sea.

FRIDAY, OCT. 4

1 p.m. Flora slams into Cuba's Oriente Province. Now it is the biggest hurricane in history. It torments the seas for a thousand miles, from the Bahamas to Puerto Rico. More than 200 miles to the south, its rains flood Jamaica. Nine persons drown.

Floridians start to worry. Nassau boards up.

SATURDAY, OCT. 5

A gigantic high pressure system to the north stops Flora over Cuba.

11 a.m. Flora wanders aimlessly westward, is blocked again by high pressure over the Gulf States.

SUNDAY, OCT. 6

The hurricane turns southwest back into the Caribbean, lashing Camaguey and Oriente provinces.

MONDAY, OCT. 7

The storm stalls between the cities of Camaguey and Santiago de Cuba. Never has a single area taken such a sustained beating from a hurricane.

TUESDAY, OCT. 8

After four days of fantastic rain, floods have risen to tree-top level in Eastern Cuba. Some areas never touched by floodwaters become inland seas.

Villages and towns are destroyed. Crops are ruined, cattle killed. Highways and railways are washed out. Mines are inundated. Factories collapse.

1 p.m. At last, the storm

## Asian Mission Discussed By Epworth WSCS

"The Church In Southern Asia" was the program topic given by Mrs. Joe Frownfelter at the Thursday morning meeting of Woman's Society of Christian Service of the Epworth Methodist Church, Thursday morning in the church sanctuary.

Mrs. Frownfelter was assisted by Mrs. Leon White and Mrs. R. S. Doll. Several members were dressed in saris to show the dress of the women of Southern Asia.

The meeting was called to order by Mrs. Charles Hurtt, president. The hymn, "We've a Story to Tell to the Nations," was sung by the group, accompanied by Mrs. Hugh Jones. Scripture lesson and devotional were given by Mrs. Wilbur Garrett, worship leader.

Following the program, the business meeting was led by Mrs. Hurtt.

Luncheon was served after the meeting in Fellowship Hall with Mrs. Haeslip, Mrs. Ratje and Mrs. Jessee as hostesses.

## Festival for Dancers To Begin Here Friday

Square and round dancers throughout Missouri will begin arriving in Sedalia Friday for the fourth annual Square and Round Dance Festival.

Gov. John M. Dalton has proclaimed the week as Square and Round Dance week in Missouri. The ballroom of Holiday Inn is expected to be crowded at the pre-festival party Friday night. Nineteen squares are all that can dance at one time.

Saturday, approximately 500 square dancers will be at the Agriculture Building, dressed in colorful western outfits, for square and round dancing.

Climaxing the two day festival will be an after party breakfast of rolls and coffee with surprises, gags and skits presented later.

Atlantic. The old death record of 6,000, set by the Galveston hurricane of 1900, has been exceeded.

## Mrs. Blaylock Named Chairman For Hopewell

Mrs. Charles Blaylock was elected president of Hopewell Homemakers Extension Club October 10 at the home of Mrs. Blaylock.

Other officers are: Mrs. Herman Nutt, vice president; Mrs. Ben Townsend, secretary and treasurer; Mrs. Allen Payne, reporter; Mrs. Henry Holman, parliamentarian; Mrs. Albert Anderson, game-song leader.

Miss Opal O'Brian, Pettis Co. home extension economist, showed films and discussed budgeting, textiles and fibers.

Roll call was answered with "A Country I'd Like to Visit." Mrs. Herman Nutt read a newsletter from Mrs. Kathryn Zimmerman and read a poem, "Autumn Leaves."

A wiener roast is planned for 6:30 p. m. Oct. 26 at Liberty Park. Hostess names were drawn.

Mrs. Nutt led games. Awards were won by Miss O'Brian and Mrs. Ben Townsend.

Mrs. Bill Feagan and Miss Sue Nutt were visitors.

The next meeting will be Nov. 14 at the home of Mrs. Herman Nutt. Lessons on civil defense and foods will be given.

**YOUR CHILD MAY HAVE PIN-WORMS**  
1 OUT OF 3 DOES

Fidgeting, nose-picking, a tormenting rectal itch are often telltale signs of Pin-Worms... ugly parasites that medical experts say infect 1 out of every 3 persons examined. Entire families may be victims and not know it. To get rid of Pin-Worms, they must be killed in the large intestine where they live and multiply. That's exactly what Jayne's P-W tablets do... and here's how they do it: First—a scientific coating carries the tablets into the bowels before they dissolve. Then—Jayne's modern, medically-approved ingredient goes right to work—kills Pin-Worms quickly and easily. Don't take chances with dangerous, highly contagious Pin-Worms which infect entire families. Get genuine Jayne's P-W Vermifuge... small, easy-to-take tablets... special sizes for children and adults.

## Bright Pupils Study Stiff Curriculum

ST. LOUIS (AP)—Some eighth grade pupils in St. Louis are studying geography—in French.

Last year, as seventh graders they studied biology—including human sexual relations that considered most of the aspects of venereal diseases.

They are, of course exceptionally gifted children with intelligent quotients (IQs) over 127. And they have studied French since the fifth grade. About 1,200 of these youngsters are part of the city's gifted children program.

One such pupil is a boy named Terry, 13.

"The best book I've read recently," he says, "was 'Electronics for Everyone.' But I don't feel that I'm any better than the other guys."

Terry likes tennis but lives electronics. His mother says he can tear a car's electrical system apart and put it back together.

Miss Kay Ware heads the program in which Terry is a pupil. "My job as director is to supervise the program," she says. "These children, because they are gifted, get a private education in a public school. Good teachers are the most important part of the program and most of ours are gifted themselves."

All children in the city public school system are given group intelligence tests in the fourth grade. Then, those who score 115 or above are automatically given individual intelligence tests. After that comes the toughest hurdle—the parents.

"We have to have the parent's consent to enter children in the program," Miss Ware says. "When we started the program in 1955 it was harder to persuade parents to agree because they apparently thought their children would become prima donnas. Now we have 226 children in the eighth grade alone."

Children chosen for the program begin work in the fifth grade. By the time they reach the eighth grade, they are at least a full academic grade ahead of the regular curriculum. Their studies have included conversational French, algebra, and basic science.

Nine elementary schools and three high schools offer the program. The only way the gifted students are separated from normal pupils are in special class work of advanced nature.

## Smelser 4-H Officers Installed In October

Officers for Smelser 4-H Club were installed by Mrs. Walter Kraft at the October meeting at the home of Sue Williams.

Freddie Kraft, president, presided. Pledges were given to American and 4-H flags. The song, "Old Black Joe" was led by Beverly Fowler, Donna Kraft and Mary May.

First aid car kits and membership cards were distributed. Roll call was answered by 12 members, Ronnie and Glenn Temple, Carlotta Knight, Connie Smith and David Van Horn became new members.

Demonstrations were given by Donna Kraft, Mary Brandhorst and Mary May.

Refreshments were served.

## War Dads, Auxiliary Meet Thursday Eve

American War Dads and Auxiliary will meet at 7:30 p.m. Thursday at the old postoffice building for business meetings.

## OBITUARIES

### Miles M. Curry (Sedalia)

Miles M. Curry, 87, Route 5, died at Buena Vista Rest Home at 10:30 a.m. Wednesday. He had been residing at Buena Vista for the past week.

Mr. Curry was born in Pettis County in the Longwood community, Nov. 18, 1875, son of the late William A. and Mary Ann Hall Curry.

One of a family of nine children, he was preceded in death by all of his brothers and sisters. He was married at Longwood, Dec. 23, 1902, to Miss Rose Ann Lawson. They were the parents of ten children. One son died in infancy and another son, Joseph Curry, died Aug. 12, 1958.

Mrs. Curry died Jan. 5, 1949. Mr. and Mrs. Curry lived all of their married life in Longwood until 1945 when they came to Sedalia to reside.

Surviving are six daughters, Mrs. Irene Hieronymus, Route 5; Mrs. Nellie Klein, Sweet Springs; Mrs. Lillie Voltrath, Sweet Springs; Mrs. Pearl Reed, Smithton; Mrs. Catherine Reed, Springfield; Mrs. Annie Voltrath, Marshall; two sons, Hugh Curry, 1720 East Fourth; Miles Curry, Route 5; 21 grandchildren and 15 great grandchildren.

The body was taken to the Ewing Funeral Home. Funeral arrangements are incomplete.

### Herman H. Howard (Tipton)

Herman H. Howard, 77, Tipton, died at 4:50 a.m. Wednesday at his home. He had lived there five years after moving from his farm in Cooper County near Pisgah.

He was born Oct. 21, 1885, near Pisgah, son of Thomas H. and Permelia Dale Howard. Aug. 22, 1907, he was married to Mary A. Draffen, who survives of the home. Mr. Howard was a member of Pisgah Baptist Church.

Surviving, besides the wife, are two sisters, Mrs. Charles Owen, California; Mrs. Anna Mae Hurt, San Francisco, Calif.; two brothers, True Howard, California; and Robert Howard, Jamestown. Two brothers died in infancy. A sister, Mrs. Christina Wood, died in 1960.

Funeral services will be at 1:30 p.m. Friday at Williams Chapel, California. The Rev. Robert H. Streeter, Bunceton, will officiate.

Mrs. Forrest Katschman will sing, accompanied by Miss Ruth Longan at the organ.

Burial will be in Walnut Grove Cemetery at Boonville.

## Funeral Services

### Miss Ollie Davis

Funeral services were at 2:30 p.m. Wednesday at the Hays-Painter Funeral Chapel in Pilot Grove for Miss Ollie May Davis, 95, Pilot Grove resident, who died Sunday. The Rev. Damon Hudson officiated.

Burial was in Pilot Grove Cemetery.

### Eugene Herndon

Funeral services will be at 2 p.m. Thursday at the Huston Funeral Home in Windsor for Eugene Herndon, 83, Leeton, who died Monday. The Rev. C. Wayne Smith and the Rev. Cleo Gray will officiate.

Burial will be in Laurel Oak Cemetery, Windsor.

## United...

(Continued from Page 1) using the payroll deduction plan.

In making his report Denny said the canvass in the Missouri Pacific shops was made by Paul Edwards, president of the supervisors' organization. The gifts represented those from the supervisors and from the federated shop crafts.

Denny noted that the example of the Missouri Pacific shops is evidence of the practicality of the payroll deduction plan.

## Woods Fires, Drought A Major Threat

CHICAGO (AP)—Drought and woodland fires continued to plague many parts of the nation today.

Drought conditions in some areas in the eastern half of the nation appeared near the critical stage. Hundreds of fires burned in the tinder-dry forestlands in the Northeast and Midwest sections.

Summer's lush green pasture lands in much of the Western rangelands and in other areas were dry and brittle. Hay shortages were reported. There was a heavy decline in feed for livestock. Milk production sagged. Marketing of cattle was higher than normal for the season.

Water levels on most of the Great Lakes and many major rivers and streams were below seasonal levels. Water shortages developed in some communities and restrictions were ordered.

No accurate estimate of the damage the drought and fires have already caused in the past several weeks was available. But the Wabash Valley Association in Indiana said that drought damage in southern Indiana and southeastern Illinois alone may total between \$35 million and \$50 million.

There appeared no immediate, general break in the long, dry, mild spell across much of the eastern half of the country. Record high temperatures have been set in scores of cities in the first half of October, with readings in the 90s and upper 80s.

However, some heavy thunderstorms erupted in the Central Plains and Mississippi Valley. Thunderstorms accompanied by lightning struck West Central Kansas with the first rain of consequence since Sept. 2. A four-hour storm dumped 2.55 inches of rain on Hutchinson.

In the Southeast, 1.02 inches were recorded during a six-hour period in Miami, Fla. Thunderstorms also fell on many other parts of Florida.

Hundreds of fires have burned thousands of acres of forestland in more than a dozen states. New York state's vast and valuable forestlands appeared hard hit. But fires also spread across other areas in the Northeast, including Pennsylvania, Massachusetts, Vermont and New Hampshire.

Flames also whipped through wooded areas in West Virginia, Indiana, Illinois, Iowa, Michigan, Kentucky, Tennessee and Texas.

In Michigan, Gov. George Romney's ban on fires in forests, fields and woodlands goes into effect today, the first such statewide order in 17 years. Fire danger was rated very high, and "explosive" in a few areas.

## Seek...

(Continued from Page 1)

brought several pictures of the missing woman for him to look at and then took them to police headquarters.

According to officers, McAllister after looking at the pictures, said he was sure it was the same woman. Kansas City officers requested McAllister take the pictures to the police station which he did shortly after 2 o'clock Wednesday morning. The Kansas City officer did not contact the police.

Sedalia officers have been alerted to be on the lookout for her in Sedalia.

Mrs. Willoughby is described as an attractive brunette, is five feet five inches tall, fair complexion, has a small scar and mole over the left eye and wears contact lens. She was reported wearing a white blouse with a red stripe at the bottom, a black skirt and black shoes, and carrying a black purse.

She was also reported wearing a Bulova wrist watch on the left arm and a gold link bracelet on the right arm. She also had a large gold pin on the shoulder.

Anyone who might have any information regarding the woman should contact the Sedalia police.

Chief of Police Ralph Hamlin told The Democrat-Capital Wednesday his department had received reports that Mrs. Willoughby had patronized a local beauty salon and had been seen by a Sedalia taxi driver.

However, Hamlin said an intensive investigation by his officers Wednesday morning had failed to produce any information as to the young woman's whereabouts. Three pictures of Mrs. Willoughby, supplied the local police by the Kansas City department, were taken to local beauty salons and bars, but no identification could be made.

A police sergeant Wednesday morning also made a door-to-door check of houses in the Second and Third street area on State Fair Blvd. where the woman believed to be Mrs. Willoughby got out of McAllister's auto. The results, however, were negative.

GRIEF AND ANGUISH — Grief is reflected by Homer Lee Barnhardt, seated on curb, after his auto struck Loretta Mae Cooper, six, at Winston-Salem, N. C., Oct. 12. At right is the injured girl's brother, William, Jr., being aided by two women. Extent of Loretta's injuries were not as yet determined.

## Daily Record

### Future Subscribers

Daughter, to Mr. and Mrs. Larry Edwards, Stover, at 6:21 p.m. Oct. 15 at Bothwell Hospital. Weight, six pounds, 15 ounces.

### In Other Hospitals

The condition of Mrs. Almeda Wolfe is improved. She is a patient at Boone County Hospital, Columbia, receiving treatment for injuries sustained in an automobile accident three weeks ago.

Mrs. Orville Cayton, Sweet Springs, is a patient at Kansas University Medical Center, Kansas City, where she is to undergo eye surgery.

**COMMUNITY Hospital, Sweet Springs — Admitted:** Charlene Hinck, Faydene Garrison, infant girl Hinck, Clyde Shanks, E. A. Tipton, Sweet Springs; Thayer Homan, Houstonia; Linda Stuenkel, Concordia.

Dismissed: Carl Colson, Nell Smith, Reta Cochran, Sweet Springs; Louise Reinwald, Gene Rohman, M. L. Berry, Concordia; Charles Howerton, Higginsville.

Charlie Wilson, 1312 East Third, has reported to the Missouri Pacific Hospital in St. Louis for X-rays and treatment.

### Circuit Court

Barbara Jean Purdy filed a petition seeking a divorce from Oliver Walter Purdy in Circuit Court Tuesday. Earl T. Crawford is her attorney.

Hamilton Price Christian, filed a petition seeking a divorce from Ada Mae Christian in Circuit Court Wednesday. Earl T. Crawford is his attorney.

## 'Hot Line' Tested Each Hour of Day

WASHINGTON (AP)—Once every hour a bell shrills and the "hot line" teletype connection between the Pentagon and the Kremlin springs to life.

A message chatters across that line—across the 5,200 miles separating the center of Soviet power and the U.S. capital.

It's not a life-and-death message from President Kennedy to Soviet Premier Khrushchev, or the other way around.

It's a test, made hourly around the clock to be certain the circuit—which has another outlet at the White House—is working and ready in event of an emergency requiring instantaneous communication between the Russian and U.S. heads of state.

This has been going on since the line was declared open on Aug. 30.

If there have been any communications between Kennedy and Khrushchev during the six weeks the "hot line" has been in business, they are being kept secret. The Defense Department and the White House refuse to discuss the subject.

There is reason to believe the hot line was not used during last week's brief tension over Soviet halting of a U.S. troop convoy bound for West Berlin.

The only break in secrecy surrounding hot line messages came last month when William C. Foster, U.S. disarmament agency chief, told a House committee a Soviet test transmission "described in lyrical language the beauties of a Moscow sunset."

The Pentagon refused to give out the text of that Russian message, or any others received since, saying, "transmissions on the communication link between the USSR and the US are considered 'privacy transmissions'."

Apparently teletype operators on the American end of the line haven't tried to match the Soviets in the prose department. The Americans have confined themselves to the standard, "The quick brown fox jumped over a lazy dog's back."

"It has proven to be the best alphabetical test devised," the Defense Department said.

One question which has intrigued many people is whether the Russian and American operators engage in any chitchat on the wire, perhaps to help pass the long waiting hours.

The Pentagon put an end to this speculation by saying that there are "no conversations, only test and service messages."

The technicians who man the equipment aren't allowed to read or otherwise while away the time.

"They have collateral duties which occupy their duty time," the Pentagon said without going into detail. If you ever are in the Pentagon, you can save yourself the trouble of trying to get a look at the hot line complex.

## Cable

(Continued from Page 1)

objection and the jury was sent from the courtroom for the second time while the prosecutor and Brown argued over the admissibility of the 17 tires as evidence.

Subsequently the jury was returned to the courtroom and Chief Hamlin testified, identifying six of the tires as ones taken from the Orscheln warehouse. These tires were labeled as exhibits numbers 2 and 16, and numbers 4, 6, 7 and 17. Hamlin identified the first two tires as 5:60x16 six-ply white-wall mud and snow tires and the latter four as 6:00x16 six-ply highway tires.

Sheriff Steve Rimmer of Saline County testified as to the written statement taken by him from Cable at the sheriff's office in Marshall in the presence of Chief Hamlin.

Pettis County Deputy Jack Cotts testified that he went to the Sedalia Police Station the morning of April 26, talked to Cable and about 15 minutes later, Cable stated to Cotts that he knew the tires he had obtained from the young men were stolen.

Prosecutor Fritz read to the jury the statement signed by Cable and in it Cable stated that on more than one occasion he had bought tires from "Dick Stage." The statement also said that he was sold 17 tires by Naylor, Siegel and Copas and that he had given the three "about \$120" for them. The statement also contained the information that Richard Stage and David Kelly had brought three tires to Cable at the bar where he worked, but that Cable did not have money enough to purchase them.

Following summation arguments by Brown and then Fritz the jury was sent out of the courtroom to deliberate a verdict at 3:41 p.m.

## Mary Killion Installed Head Of 4-H Group

Mary Killion will serve as president of Hughesville Happy Helpers 4-H Club this year. She and her supporting officers were installed by candlelight at the Oct. 14 meeting in Hughesville School cafeteria by Mrs. Charles Callis, retiring community leader.

Other officers are: Bobby Wiskur, vice-president; Linda DeBord, secretary; David Powell, treasurer; Richard Callis, reporter; Robert Wiley, council representative; Robbie Williams, song leader; Russell Powell and Johnny Killion, game leaders; Mrs. Leonard DeBord, community leader; Mrs. David Powell, assistant community leader.

Each member made a cash donation to CARE.

Refreshments were served by the Charles Callis family to 20 members.

The next meeting will be at 7:30 p.m. at Hughesville School cafeteria. Enrollment blanks will be filled out and pins presented for project completion.

## Might Trim Democratic Convention

WASHINGTON (AP)—The Democratic National Convention, which like Topsy just sort of grew, may be trimmed to a more manageable size next year. And its collective voice may have less Southern drawl and Western twang.

The decisions will be made when the Democratic National Committee meets in November or early December to allocate the votes for the 1964 convention at Atlantic City.

A subcommittee headed by Jacob Arvey of Chicago, the national committeeman from Illinois, has been studying the allocation of votes since last May. No proposals have been announced, but sources close to the national committee say these could be among them when the committee meets.

A return to the bonus system. It would reward with larger representation those states—mostly east of the Mississippi—which voted for President Kennedy in 1960.

No bonuses, but a reduction in voting power of those states which lost representation in Congress because of population shifts in 1950 and 1960 but, in effect, never lost any of their convention votes.

A combination of the two that would allocate votes on an up-to-date population basis plus bonus votes for multiples of Democratic votes in 1960, regardless of whether Kennedy carried the state.

Also expected to come up is a hardy quadrennial—the number of persons at a Democratic convention.

Republicans limit their state delegations to a one-man-one-vote basis. But Democrats over the years have split things up into half votes. That way more delegates get to go to the convention, a form of reward for party faithful.

But it also can be confusing. In 1960, there were 3,042 delegates authorized to cast 1,521 votes at the Los Angeles convention. And that didn't include more than 1,400 persons present as alternates.

To the politician, however, the number of delegates isn't nearly so important as the number of votes allotted each state.

Some critics felt the 1960 convention was weighted in favor of many—but not all—Southern and far Western states.

Even though there could be some sharp infighting, National Chairman John M. Bailey thinks this is the year to take a good close look at the delegate allocation.

Next year, Bailey said in an interview, there is no doubt the Democrats will nominate Kennedy. So the time to overhaul the allocation system is now—when it's relatively quiet.

## Three Men Inducted In Army Thru Draft

Three men were inducted into the US army this month through Pettis County Selective Board No. 84.

They were Albert Marion Arnold, Jr., 23, Route 5; Michael Ray Hughes, 23, Lincoln, formerly of Sedalia Route 2, and Michael Luther Carter, 25, Kansas City, formerly of 108 East Cooper. Arnold and Hughes left from Sedalia, while Carter entered from Kansas City, credited to the Sedalia office. They entered the service for two years and will take basic training at Fort Leonard Wood.

The quota for November has been set for five men from Pettis County. Mrs. Verna Williams said 17 men from Pettis County left for the Armed Forces Examining and Induction Station in Kansas City Tuesday to take physical examinations.

## Ex-County Home Agent Gives Talk

Mrs. Mae Everett Latif, home agent at Silver City, N.M., and former home economist in Pettis County, addressed a large group of extension club women and others at the Fox Theatre Tuesday afternoon telling of some of her experiences in a like program in Pakistan from 1953 to 1958. She went directly from Pettis County to Pakistan.

Showing pictures of the people throughout the area where she was, giving particularly an interesting slant on the women, their dress and their customs. They do most work in a squatting position, she said, and she had pictures of a 4-H group of girls sewing on their type of sewing machines which they put on the ground and turn the wheel with one hand while they feed it with the other.

The 4-H is known there as the 5-D's and are similar in the meaning of each except that they have added the fifth, which is faith in God.

The predominant religion is Moslem and they do prefer that it is called Moslemism instead of Mohammedanism, she said. Both those of Moslem faith and the Hindu believe in Jesus as a prophet but not as divinity. They believe in a long line of prophets, she continued, of which Mohammed is the last.

Her pictures included a girls school with a group of little girls, which is something they haven't always had, and a boys school which is held outside the building because it is cooler outside and even in the winter it is better because the buildings have no fire.

There are low level families and high level, there seems to be extremes in everything there.

Mrs. Latif had pictures of some brides, one had a ring on every finger. They like jewelry. Another bride was in red, which is the traditional bridal color, as white is here. The veil that she would put over her face had garlands of flowers. The groom, too, wore a veil with garlands of flowers, and they see each other first in the bridal mirror.

When asked how many wives the men had, she stated they were allowed four, if they could afford to provide for that many and love them equally.

The forests there have just about been depleted and they have practically no fuel even to cook with. They use low fireplaces with big kettles.

The men go to the tea shops and talk, while the women go to visit with their families for their talks.

While she was traveling alone she saw a group of women, and as long as there were no men around the women uncovered their faces and allowed her to take pictures. One day she saw a group of women from a desert tribe sitting on the ground tacking a quilt and she went up and asked to take their pictures.

As she did a man came running wildly up shouting something and Mrs. Latif said she asked the guide what he was saying.

He is telling them not to let you take their pictures.

A woman of the group laughed and shouted something back. "And what did she say?" Mrs. Latif asked.

"She said," the guide told her, "So what?" Which showed, said Mrs. Latif, how they are picking up things from the western world.

Mrs. Latif was introduced by Mrs. Albert Anderson, president of the Extension Club Council, who also presented her a gift from the Council. Miss Opal O'Brian, Pettis County home economist, assisted.

## Purchase, Birdsong Attend Roads Meet

Pettis County Judges C. M. Purchase and E. L. Birdsong went to Jefferson City Wednesday morning to attend the convention of the Missouri Good Roads Association.

Purchase is president of the Association of Missouri County Judges and the two are attending the convention as representatives of the state judges group.

Rex M. Whitton, federal highway administrator, was the main speaker. Whitton formerly was chief engineer of the Missouri Highway Department.

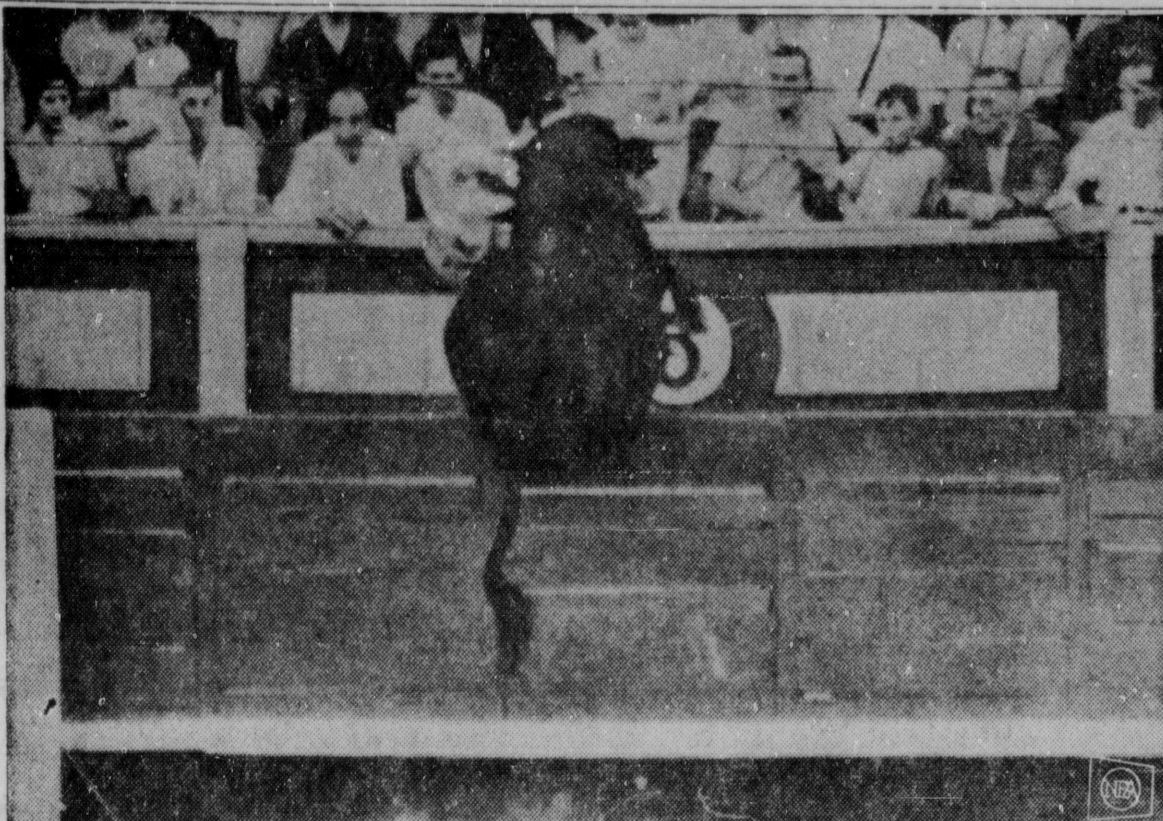

## Year's Goals Chosen For Smithton 4-H's

Health, Grooming and Community Improvements were selected as goals for the year by Smithton 4-H members Oct. 14 at Smithton School.

Julia and Jana McGee, Cindy Robertson and Bruce Monsee became members. Forty-three persons attended.

Installation of officers will be Nov. 11 at Smithton School. The membership cards are to be turned in at that meeting.

**SITTING BULL**—When there's a bullfight in Madrid, Spain, the bull usually stays in the ring. However, in this particular fight, the bull decided to take a fence position.

Erysipelas Immunity

**ANCHOR**  
**ERY-MUNE**

(Erysipelas Immunity)  
Your most effective way  
to prevent Erysipelas!

Anchor Ery-mune has been established by farmers everywhere as the dependable standard bacterin used to prevent crippling Erysipelas. This feared disease is second only to hog cholera in killing American farmers' hogs.

Packed with concentrated power, Anchor Ery-mune gives your hogs proven protection against Erysipelas. One dose gives maximum protection to market weight. Ery-mune is the same type of vaccine used in Europe's most densely infected Erysipelas areas.

Ery-mune causes no virus reaction, no stunting—no growth setbacks in your hogs. No special diet or unusual care is needed.

## The Business World

## Oil Companies Putting Something Back In Ground

By JACK LEFLER  
AP Business News Writer

NEW YORK (AP)—Oil companies have been in the business of taking something—petroleum—out of the ground. Now they're going into the business of putting something back—fertilizer.

A rush is on by major oil companies to get into the chemical fertilizer business. It in-

volves investment of hundreds of millions of dollars.

The oil companies feel it is a natural avenue of diversification. For one thing, their by-products, such as ammonia, are used in producing fertilizer.

Some big deals have been brought off recently and others are cooking.

Socony Mobil Oil Co. stockholders will meet Nov. 20 to vote on the proposed acquisition of Virginia-Carolina Chemical Corp. for an \$80 million in stock.

Cities Service Corp. acquired Tennessee Corp., owner of valuable Florida phosphate lands, last June.

The consolidation of Continental Oil Co. and American Agricultural Chemical Co., is pending.

The valve of oil company acquisitions of independent fertilizer producers has aroused the interest of the government's antitrust officials.

They are concerned by such a sudden increase in industrial concentration and are apprehensive that the trend might put the remaining independent fertilizer companies at a sharp disadvantage with the well-financed oil company subsidiaries.

Justice department lawyers are taking a look at the pending acquisition proposals with the idea of stepping in if it is thought that they might tend to reduce competition and thus violate the antitrust laws.

They are backing with big money their opinion that they are well-suited to fill that role.

Sam Dawson is on vacation

NEW MUSCLE IN BERLIN—M-60 United States tanks maneuver at Parksrange in West Berlin. The diesel-powered machines mount 105-m.m. guns, and are to replace the older M-48 tanks.

## Route Across Nation Topic For Whitton

JEFFERSON CITY (AP)—The first coast-to-coast route in the Interstate Highway System could be open to traffic within three years.

That was the prospect offered today by Rex M. Whitton, federal highway administrator, in a speech prepared for Missouri Good Roads Association convention. Whitton formerly was chief engineer of the Missouri Highway Department.

Whitton said he can't tell yet which route will be the first to span the continent but he hopes it would happen before the 100th anniversary of the first transcontinental railroad May 10, 1869.

"It will be a great day when that ribbon is cut and the highway is clear from coast to coast," Whitton said. "Without a stop sign, a traffic light on a cross road, it will be possible to drive across the country at legal speeds—in 48 hours. That's the non-stop possibility, of course, and I hope nobody tries it. But a four-day trip will be quite practicable for hardy people."

Whitton said the Interstate system, although comprising only one per cent of the nation's mileage, will carry 20 per cent of all the traffic in its work horse role.

"Its efficiency is measured in the prospect of saving highway users \$9 billion a year—yes, billion—in shorter travel time, lower vehicle operating costs, reduced accident costs, and lessening of the discomforts and tensions of stop-and-go driving. Its safety is measured in the prospect of saving more than 5,000 lives a year."

As of July 1, he reported, 36 per cent or 14,000 miles of the 41,000-mile system were in use. Another 3,500 miles are under construction and there is engineering or other work under way on another 11,300 miles.

In Missouri, he said, 487 miles of the state's total of 1,105 miles of Interstate highways are open to traffic and some sort of activity is under way on all but one mile of the rest.

## Outdoor Fires Banned In State of Michigan

LANSING, Mich. (AP)—Gov. George Romney, acting on the State Conservation Department recommendation, issued a proclamation forbidding outdoor fires and smoking in the tinder dry woods throughout Michigan.

The proclamation, effective at 4:30 p. m. today, is the first statewide ban on fires in Michigan in 17 years.

The order applies to all forests, fields and woodlands. Violators face a possible \$100 fine or a three-month jail sentence.

It was desegregated in 1962. In New Orleans, 85 miles to the north, a citizens Council spokesman said the banner would bring retaliation in the form of "Freedom Riders North" to Kansas City.

"We are collecting private contributions to finance the movement of some new citizens to the Bishop Hogan High area," said George Singleman, a council director.

Father Christopher Schneider, pastor of Our Lady of Good Harbor Church, said he was bewildered by the council's reaction. There have been no objections voiced here, he said.

## Those Blamed For Near Riot Not Students

DALLAS (AP)—Police Chief Jesse Curry said a study of arrests made on the eve of last Saturday's Texas-Oklahoma football game showed residents of Dallas and other older celebrators—not students of the two universities—created a near-riot.

"Of the 70 arrests studied," Curry said, "47 involved persons who live in Dallas and 23 involved out-of-town offenders. Ages

of many violators made it strongly improbable they were students."

Curry said 26 of those arrested have been handled by the Police Department before, 16 of them had been taken into custody at least four times in the past and one has a record of 44 arrests.

**CELEBRATES CENTURY OF LIFE**—Mrs. Meta Cassing, Concordia, celebrated her 100th birthday at open house Oct. 13 at St. Paul's Lutheran Parish Hall in Concordia. Mrs. Cassing reached the century mark Oct. 10. She resides with a daughter, Mrs. Jim Simon. Eight of her children are living, five in Concordia.

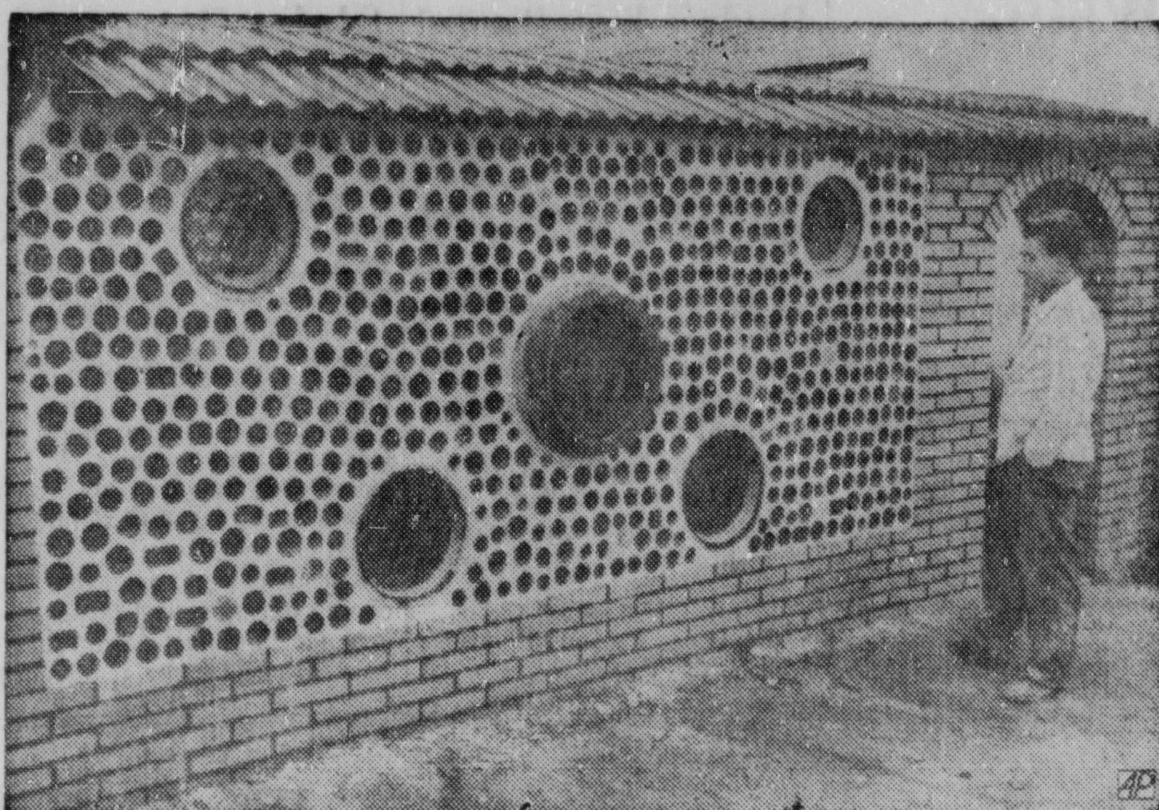

## Hunting May Be Halted

LEAVENWORTH, Kan. (AP)—Whether hunting will be allowed to continue in Kansas may be decided today by the Forestry, Fish and Game Commission—or the weatherman.

The commission has been asked by former Gov. Alf Landon to put a stop to hunting "to reduce the danger of fires to people, livestock and buildings" during the prolonged dry spell. Landon wired the commission Tuesday that "Kansas pastures are a tinderbox, with the exception of some western areas."

Jerry Boling, chairman of the five-member commission, said Tuesday night it would be necessary to call a meeting, or else poll the members by telephone, before a decision could be made.

In any event, he said, no action would be taken until he could confer with George Moore of Pratt, commission director.

**PUT TO NEW USE**—Innkeeper Friedrich Schmitt of Herford, West Germany, stands in front of a brick wall he decorated with bottles. When he found he had difficulty disposing of an accumulation of empty bottles, he solved his problem by using the wall.

## World News In Brief

VIETIANE, Laos (AP)—The Laotian national assembly extended Premier Souvanna Phouma's extraordinary powers for another year in a brief assembly session today.

Under the special powers, first granted to Souvanna Oct. 7, 1962, he is permitted to rule by decree.

OTTAWA (AP)—Prime Minister Lester B. Pearson's minority Liberal government survived two more votes of no-confidence Tuesday night.

It was a small revolt in the House of Commons over farm policies in eastern Canada, such as dairy subsidies and the use of fertilizer, and posed no real threat to the government.

The first motion, introduced by the Conservatives, was defeated 134-95, with the help of the Social Credit and New Democrat parties.

The second motion, introduced

by the Social Credit party and supported by the New Democrats, was turned down 208-22.

The liberals command 129 votes against a combined opposition of 136.

PARIS (AP)—A French government spokesman says President Charles de Gaulle is giving serious thought to a trip to the United States to see President Kennedy.

Information Minister Alain Peyrefitte said after a Cabinet meeting Tuesday De Gaulle felt he should return the U.S. President's visit to Paris in May 1961. He said no date has been set.

MOSCOW (AP)—The first snow of the season fell on Moscow today.

## Miss Linda Jean Saylor is Bride Of Mr. Darrell Dillon Sept. 20

Marriage vows were solemnized between Miss Linda Jean Saylor, daughter of Mr. and Mrs. Virgil Saylor, Marshall Junction, and Mr. Darrell Dillon, son of Mr. and Mrs. Albert Dillon, Houstonia, at First Baptist Church, Houstonia, at 8 p.m. Saturday, September 20.

The Rev. William Brock, pastor, performed the double ring ceremony before a setting of six individual candelabra decorated with pink gladioli and white chrysanthemums, tied with large white satin bows.

Mrs. Nell Williams, organist, played a selection of appropriate music.

The bride, given in marriage by her father, wore a white ballerina length dress with fitted bodice of Chantilly lace. The scalloped front neckline, which dipped in the back, was highlighted with miniature seed pearls and sequins. Long tapered sleeves came to points over the hands. The bodice dipped to a V at the waist, flowing into a bouffant pleated skirt of peau de soie, accented with a large bow in back. Her shoulder length veil of pure silk illusion fell from a tiara, handmade of miniature pearls and crystal head trim. She carried a cascade of pink and white French carnations.

The maid of honor, Miss Carol Ann Saylor, sister of the bride, was dressed in a pink street dress with a tightly fitted bodice and full skirt. A pink bandeau with matching veil comprised her headpiece. She wore a corsage of white carnations.

Miss Mary Ann Dillon, Houstonia, sister of the bridegroom, and Miss Kathie Crank, Sweet Springs, cousin of the bride, carried the bouquets. They wore street dresses of pink and white and pink carnation corsages.

Mr. Carroll Dillon, of Houstonia, served as best man for his twin brother.

Mr. Cecil Saylor, Houstonia, was usher.

The bride's mother chose for her daughter's wedding, a navy blue suit with white accessories and wore a white carnation corsage. The mother of the bridegroom selected a navy blue dress with black and white accessories and wore a white carnation corsage.

Following the ceremony, a reception was held in the church basement.

The bride's table was centered with a three tiered wedding cake decorated with pink roses and white wedding bells. On the top tier, stood a miniature bride and bridegroom, under an array of white rose buds. Lighted pink tapers, in crystal holders stood at the sides of the cake. Pink punch was served from a crystal bowl. Serving were Mrs. Don Kearney, Mrs. Delmar Cornine, Mrs. Cecil Sleeper, Mrs. William Brock and Mrs. Cecil Saylor.

Miss Martha Ann Hutton, Jefferson City, attended the guest book.

For traveling, the bride wore an ice blue taffeta dress with white accessories, and a pink corsage, taken from her bridal bouquet.

The couple is at home in Houstonia, where the bridegroom is employed in construction work.

Guests from Nelson, Sweet Springs, Sedalia, Hughesville, Kansas City, Kansas, Jefferson City and Marshall attended.

## Bomb Victim In Darkness At Hospital

BIRMINGHAM, Ala. (AP)—Four weeks ago today Sarah Jean Collins, 12, was eagerly awaiting the start of school. Now she lies in darkness at a hospital.

Sarah Jean was injured in the blast that rocked the Sixteenth Street Baptist Church Sept. 15.

Four Negro girls were killed, including her sister, Addie Mae, 14. Sarah Jean's eyes were cut by flying glass.

Sarah Jean's daily existence now is through sounds. She can't do what she likes the most—to read.

Her right eye is covered by a patch; her left eye is uncovered, but swollen and she cannot see through it. Doctors say she will probably regain useful vision.

Nurses say Sarah Jean has moments of deep despondency, and at other times peeps up. Never will she volunteer to talk about the bombing.

"Sometimes my eyes hurt," she told a visitor Tuesday, running her fingers back and forth across the bandages.

Sarah Jean says she heard about the deaths of the four other girls over the radio. With the others she was getting ready to sing in the choir when the blast went off.

What does she think about while lying in the hospital bed?

"About school," she answered. She has a special friend in University Hospital, C. S. Norton, a young Negro who works in the radiology department.

"She adopted me as her brother, and I've adopted her as my sister," he said. "She talks to me, but she's quiet with most everybody else."

Sarah Jean was asked how she feels about the church bomber now that a full month has passed. Her lips moved once but she said nothing.

Norton answered instead.

"Speaking for Sarah—you don't mind if I speak for you, do you Sarah?—she would love to thank people who have been nice to her, for the gifts, dolls, cards and beautiful flowers. I'm sure everyone is praying that she gets her sight back."

"As for the bomber, people are praying for him. We wonder what he would be thinking today, if he had children. No one knows who bombed the church but God. . . . He will face God. We turn this problem over to God, because no one else can solve Birmingham's problems. We leave it up to God to solve them."

"Isn't that how you've felt, Sarah?" Norton asked gently. Her head still bowed, she nodded slightly.

**CALL TO HISTORY**—"Good hits were made on Tokyo..." That's the message this passerby hears (Gen. Jimmy Doolittle's report of his bombing raid on Japan in 1942) when she picks up a phone at one of 37 stations around the base of a new skyscraper in New York. The building is new headquarters for the Columbia Broadcasting System, and the photographic panels and recorded news events review the sights and sounds of history during the last 36 years—from Lindbergh to John Glenn.

The presentation was in conjunction with National Fire Prevention Week ceremonies. The man with the next longest record of continuous service to the Sweet Springs community is August Kuhlman, serving since 1926. He was also an honored guest.

Sweet Springs boat club met at Pomme de Terre dam, Hermitage, Sunday morning. A boat cruise was taken. A basket dinner was served.

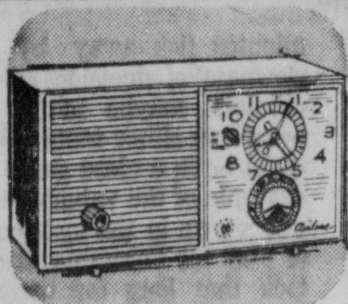

**OTTERVILLE**—The October meeting of Otterville PTA was held in the school auditorium.

Mrs. W. C. Dunham, vice president, presided. Mrs. Forest Lewis gave the devotional. Mrs. Jack Smith reported that the first grade received the September attendance banner. Eighty-six persons have become members.

Mrs. Dunham turned the meeting over to Mrs. Eddie Seifert, program chairman, who introduced Mrs. Joe Davis, director of music. Mrs. Davis presented the first and second grade in singing "Itsy Bitsy Spider" and "Six Little Ducks." Supt. C. M. White was introduced by Mrs. Seifert, who, assisted by the primary teachers Mrs. Georgia Kuhn, Mrs. Elaine Griffith, Mrs. Melva Woodson, Mrs. Dorothy Williams and Mrs. Ruth Zumsteg, gave

a talk on the ungraded primary. The next meeting will be on November 5. Democrat Class Ads Get Results! Dial TA 6-1000.

# Big Homecoming On Friday For Smith-Cotton's Tigers

## Anticipate First Victory; Crown Queen With Fanfare

Smith-Cotton High school is pointing to a big Homecoming for Friday night, pointing so hard they anticipate their first win of 1963 for the football Tigers. It will be the night when Miss Diane Drennen will be crowned the Homecoming Queen with all the fanfare deserving a Queen.

The football players this week have been enjoying a different atmosphere in practice as well. They have at last been given an opportunity to work out on a moist gridiron and not so much in the "dust bowl."

The gridiron has been under the sprinkler system every day this week and the switch seems to have done something for the boys. It's an experience they apparently enjoy and not having to fight the dust the first of the week only to get to play on a damp field on Friday night at home.

Three more sophomores put out their best this first two days of practice and drew comments from Coach Dick Rees as working into the lineup during the game. He had kind words for Steven Long, a line backer on defense and end on offense, Joe Lamy, an up and coming end, and Bobby Cusick, a quarterback and back.

Discussing the possibilities for Friday night, the last home game for the Tigers, Coach Rees said, "We anticipate a victory for the homecoming crowd this weekend. The boys have had their best two practices, Monday and Tuesday evening, and should be all set for Friday night."

Although he did not say so in so many words, but local fans can expect to see a team on the field in an excellent frame of mind, and will also see some new faces in and out of the lineup during the game.

His starting lineup has not been completely decided upon as of now, and there were some indications there may be some switching.

Thursday night the high school students will participate in a "warm-up" rally with a snake dance parade in the downtown area. Friday afternoon the big homecoming parade will be held through the downtown business sections, with bands, floats and pep squads.

## Willie Pep Into Boxing Hall of Fame

NEW YORK (AP)—Willie Pep, a dapper, dandy dancer whose flying hands and feet earned him the world featherweight title and the nickname "Will o' the Wisp," is the latest addition to Boxing's Hall of Fame.

"It is nice news," said Pep when advised of his selection. "I was surprised that I got it now."

Now a sales representative for a radio company in Brockton, Mass., Pep said "I miss boxing very much. It was an exciting life and it gave you a chance to meet a lot of very nice people."

Light-footed Willie, now 41, was one of the fastest, most clever boxers in modern history.

He won the featherweight title in 1942 with a 15-round decision over Chalky Wright in New York, was in military service for two years and retained the crown until the first of his four classic fights with Sandy Saddler.

The lanky Saddler won the first one on a fourth-round knockout in 1948, but Pep regained the title in 1949 with a decision over Saddler. Sandy won the next two on knockouts in 1950 and 1951.

Pep turned pro in 1940 and piled up the amazing record of 62 victories in a row before losing to Sammy Angott in an overweight match. He then won 72 of his next 73 bouts, marred only by a draw.

He was active until 1959 and had an over-all record of 220 victories, one draw and nine losses.

Pep is the 77th member to be named to the Hall since it was formed in 1954. Announcement of his election was made Tuesday by Nat Fleischer, publisher of Ring Magazine and custodian of the Hall.

## Geigle Loses To Hamilton In Top Event

Ronnie Etchison returned from a tour of the Pacific and Japan and came to Sedalia Tuesday night to win his first match in Sedalia teaming with Jack Allen. They defeated Jim Grabmire and "Bulldog" Plechas in the semi-final match of the evening and provided the thriller of the evening for local wrestling fans.

The feature event on the card drew together Bob Geigle and Larry "Rocky" Hamilton and they provided another interesting rough and tumble event for the ringsiders. Hamilton overcame a first fall pin which Geigle won in 15 minutes and 50 seconds, using a thumb thrust and press.

Hamilton provided tough competition for Geigle as he came back and took the second fall in four minutes while applying a series of knee drops and a body press. The third fall was won in six minutes and 40 seconds with Hamilton pinning Geigle with a reverse back drop.

Plechas and Grabmire took the first fall of the team event when they cornered Allen and worked him down, with Plechas completing the fall using a backbreaker on Allen to win in seven minutes and 25 seconds. The second fall took 11 minutes and five seconds, with the two giants working over Allen again but drew disqualification when they refused to heed the referee warning and he awarded the fall to Allen and Etchison.

The third fall, going six minutes and 30 seconds, saw Etchison take over and in the last minutes of the fall provided a series of bounces of his opponent off his knee and then body pressed him for the fall.

In the opening event between Allen and Grabmire, Allen using a reverse leg lock tied Grabmire up and won the fall in 11 minutes and 55 seconds.

A special event brought two women wrestlers together in Ann Reagan and Jessica Rogers. The one-fall 20 minute limit event ended after a thrilling 11 minutes and 10 seconds. Rogers obtained a cartwheel and rolled Reagan around, then body pressed her for the fall.

The next wrestling show is scheduled for Tuesday night, Oct. 29, at Convention Hall in Liberty Park.

## Delay Butts Hearing

ATLANTA (AP)—A hearing on motions by Curtis Publishing Co. seeking a new trial of Wally Butts' libel suit, or a reduction of a \$3.06 million judgment awarded him, has been postponed until Dec. 10.

The hearing, originally scheduled today, was ordered postponed by U.S. District Judge Lewis R. Morgan because the transcript of the trial is incomplete.

## SPORTS

### Texas Tackle Is Lineman Of the Week

NEW YORK (AP)—Texas tackle Scott Appleton, selected by Longhorn Coach Darrell Royal as the outstanding All-American candidate on the nation's top-ranked football team, was named Lineman of the Week today by The Associated Press.

The 21-year-old senior and team co-captain looked every inch an All-American last Saturday as undefeated Texas rolled to its fourth straight triumph with a devastating 28-7 victory over Oklahoma.

Playing both ways, Appleton made or assisted on 16 tackles. He led the first scoring drive at offensive tackle and set up the third touchdown by knocking Oklahoma quarterback Bobby Page loose from the ball, recovering it on the Sooners' 18-yard line.

The 235-pound, 6-foot-3 native of Brady, Tex., also recovered a fumble that stopped an Oklahoma drive and nailed quarterback John Hammond for a seven-yard loss on third down to end another Oklahoma drive.

Virginia center Turnley Todd, Minnesota tackle Carl Eller and Illinois linebacker Dick Butkus also received high praise in the poll of sports writers and broadcasters.

Todd made seven unassisted tackles in the first half in Virginia's 6-0 triumph over VMI and made a second half interception that stopped a VMI threat at Virginia's 30.

Butkus made or assisted on 23 tackles in a 20-20 tie with Ohio State. He set up Illinois' first touchdown with a pass interception.

Eller twice threw Northwestern quarterback Tommy Myers for long losses and recovered a Myers' fumble to blunt a Northwestern bid in the third quarter.

Other linemen nominated: Ends—Ted Davis, Georgia Tech; James Rust, Baylor.

Tackles—Bill Pfeiffer, Notre Dame.

Guards—Rick Redman, Washington; C. C. Willis, Texas Tech; John Hughes, SMU.

Centers—Ronnie Caveness, Arkansas.

## Sports Scraps

By D. KELLY SCRUTON

THERE seems to have been a "state of confusion" resulting from several decisions of officials at the Smith-Cotton and Hickman High School of Columbia's game last Friday night. One in particular which actually didn't have any affect on a possible scoring chance because they came with seconds left in the first half of the game.

I want it strictly understood I am not offering any alibi for the Tigers, they played very well and they also had some poor moments in the game. Nor am I offering an alibi for them for losing and they are not asking or wanting any, but such decisions can shake a bunch of high school players and cause a momentary let down.

To men I have witnessed five high school games in which Smith-Cotton has participated and have talked with any number of former football players, coaches and some writers who are in accord that the officiating this year is far below par, and this has been evident not only in high school, but a number of college games. Ironic as it may seem, penalty decisions called against the Tigers did not directly result in the loss of any game, yet one called last week cost the Tigers one point.

The penalties under discussion which threw some fans in a "twirl" were the three 15-yards, two actually 15 yards each and the third half the distance of the goal—3 yards, just before the first half ended.

The Kewpies had just completed a touchdown and kicked off to Smith-Cotton. Tom Gibbs took it on the 11-yard line and returned to the Tigers' 33. Gibbs took the ball and went 10 yards, but the play was nullified due to a clipping penalty. It was Coach Dick Rees who drew 15 yards personal penalty when he overstepped the line, and Coach Skip Schulz had some remarks over the penalty and he drew the next one, but there wasn't 15 yards left so his only came to the three-yards.

Asked about the penalty Schulz' only remark was, "I didn't think they could hear that far."

An example of officiating came in the first part of the game when Smith-Cotton drew a five-yard penalty and two plays later it was "evened up" with five against Columbia.

I agree penalties should be called when warranted, but to "strain" at penalty decision is too much. These high school players are not perfect and we have found officials come under the same category—not perfect either. An example on the part of the officials making a decision, it took more than one full minute for the referee to decide whether the Tigers had made a first down on one play before calling out the chain for measurement. It looked like an executive session on the field with all the stripes gathered around the ball and when it was measured and on the five-yard line. It started on the 11-yard line, and as bad as my eye sight is, I believe I could see it had a good edge for the first down. But those

minutes tick away by the slowness of decisions of the officials, maybe not to the benefit to either team—but it could be in a close game. An example of the valuable time was shown in the last second of play for Columbia, it only took that long for them to make their final touchdown.

I just wanted to clarify the three penalty decision which has set off considerable discussion among the players, parents and coaching staff.

—O—  
ACTUALLY I am not too happy about the way the selections of officials have been made this year, as if it is any of my business. However, I have a habit of getting my nose in to some things which some people do not like, but that is neither here nor there.

I sympathize with Pete Elliott, executive secretary of the Central Missouri Conference. It has been reported to be on good authority it is up to Pete to select and assign in the conference games. I also understand it has become quite a problem and he's been put in an embarrassing position already this year.

As far as Smith-Cotton is concerned it was at Jefferson City, and again I repeat the officials didn't cost the Tigers the game—the Jays were just too good anyway. But Pete finally ended up an official and it was mid-afternoon of the game before two other officials could be located who would work it. Elliott lives in Jefferson City and should not have been put in that position—but he was.

Officials for the Columbia game here all came from the Columbia area, which wasn't good from the standpoint of the officials themselves. But fans often do not look at that way, they feel if any favoritism is shown they would lean toward their own local school.

Yet I do not believe any officials officiating any high school game could be outright accused of "cheating." They are too big to stoop that low. Nor do I believe any one of them would try and use his "penalty power" to win or lose for a team.

In all fairness to the officials I do not feel one should officiate a game in which his hometown team, or a former school of his is participating, and it is unfair to him to be selected for an assignment of such nature.

After all us "Old Timers" are more used to fellows like Clarence Whiteman, and these new boys just cannot stack up with "old timers" like Clarence. Let's face it, they just can't get into the game like the "old timers." Rules are constantly being changed and regulations are getting stiffer to the point that not even the fans know what's going on down on the field half the time.

### Competition Fierce

CANON CITY, Colo. (AP)—Competition for places on the Rockbusters football team is fierce.

The team, made up of inmates of the Colorado penitentiary, opens the season Nov. 2 against the Western State College junior varsity at Hickey Field in Canon City.

It will be the first game in history outside the gates for the Rockbusters.

### Texas Up, Arkansas Down

## Normal Grid Year Consists Equally of Hills and Valleys

NEW YORK (AP)—A normal football season usually is made up of an equal number of hills and valleys. The Texas University team was at the top of the hill last week when it defeated Oklahoma and took over the honor of being rated the nation's No. 1 college team.

Arkansas was down in the valley, dropping its second of the season. The defeat this time was by Baylor and the two setbacks were by a total of five points.

This Saturday Arkansas gets revenge.

The Texas-Arkansas encounter is this week's blue-plate sports special. Last week's menu almost was devoid of attractions with 34 correct picks and 15 losers for .694. That dropped the season's totals to 143-57 for .715.

Other selections for the coming weekend:

Wisconsin over Iowa: Hal Brandt of the Badgers may not outpitch Fred Riddle of Iowa, but the Wisconsin star will get more help from his teammates. Pittsburgh over West Virginia: The West Virginians too big for their own good.

Mississippi over Tulane: Tulane has been shut out in three of four games this season while Mississippi's potent defense has held three opponents to only 13 points.

Oklahoma over Kansas: The disorganized Sooners pull themselves together.

Illinois over Minnesota: The surprising Illini display their talents at homecoming.

Georgia Tech over Auburn: Billy Holtridge of the Engineers can run, pass and kick.

Alabama over Tennessee: Both teams were disappointed last weekend but Alabama will recover more quickly.

Navy over Virginia Military: This game features the Oyster Bowl at Norfolk and Roger Staubach is the prize pearl of the Middles.

Northwestern over Miami of Ohio: Tommy Myers finds the range.

Air Force over Maryland: Terry Isaacson is the difference in an aerial battle.

Baylor over Texas Tech: Coach John Bridges has his pro-style offense clicking.

Duke over Clemson: Duke has

## Lions Defeat Optimists In Soccer Play

Lions whipped Optimist 2-0, while Freese Dairy and the Jaycees battled each other to a 1-1 tie in soccer action Tuesday night at Centennial Park.

Freese' Sam Gravitt and the Jaycees' Charles Snyder battled it out in the scoring column, with Snyder drawing first blood with his goal in the first half, while Gravitt rounded it out in the second for Freese, saving the Bantam Freese game.

The Lions Club sponsored team, with a 2-3-3 season record in the Midget League, scored once in each half with David Green and John Joy doing the scoring honors. Lions goalie Cornelius Chapman did a good job, holding Optimist scoreless.

Thursday, in the Bantam League, Third National Bank (5-2) will face Sealtest (2-5) at 6:30 p.m., followed by Midget League action pitting Adco (4-3) against S&M Athletic Goods (3-3-1) at 7:30.

Tonight, in the Junior League, Optimist (1-0-2) faces Adco (1-0-2) at 6:30 p.m., followed by Mutual of Omaha (0-1-2) vs. T&G Motors (1-2) at 7:30.

## Somebody Has to Be A Fall Guy

NORMAN, Okla. (AP)—Oklahoma football Coach Bud Wilkinson, obviously upset over charges that he was looking for a scapegoat when he dismissed halfback Joe Don Looney, said "it was just something that had to be done."

Looney said if he had had a good day against Texas, and if Oklahoma had won, "everything would have been okay." And his father, Don Looney of Fort Worth, Tex., a former star at Texas Christian said, "somebody's got to be the fall guy for losing to Texas. I guess Joe Don is it."

Wilkinson disagreed Tuesday. "I don't think Joe Don lost the Texas game for us," Wilkinson said. "No individual is going to lose a game by himself."

Wilkinson said the decision to oust Looney, who led the nation in punting last season and was fifth in yards gained rushing, resulted from an accumulation of incidents.

But the final decision, he said, came when several team leaders came to his office Monday morning.

"They told me they thought the presence of Looney on the squad was hurting the team," Wilkinson said.

"Until then, I had no intention of kicking Joe Don off the team," Wilkinson said. "But I had an understanding with the team leaders that if Joe Don's attitude became infectious and began hurting the team, he would have to go."

Wilkinson said he had been concerned with Looney's attitude toward practice ever since the 224-pound speedster transferred to Oklahoma from Cameron Junior College at Lawton, Okla.

"I tried to talk him into leaving the team after last season," Wilkinson said. "I told him I didn't think he would be able to make it because of his attitude."

"My biggest regret is that I allowed him to come back to the team this year. But he wanted to come back and I let him. This way, it's harder on Joe Don."

"I'm really sorry for the boy but I had no choice."

"Team morale had ceased to exist. It's awful easy for us to look like villains, but we protected this guy for more than a year and we can't continue to protect one boy at the expense of 55 others."

## Tom Erases Old Record, Looks Good

By JIM VAN VALKENBURG  
Associated Press Sports Writer

Coach Clay Stapleton of Iowa State long has felt that Tom Vaughn is both the Big Eight's best fullback and the best back to come out of Troy, Ohio.

That's a tall statement because Jim Grisham of Oklahoma is considered one of the league's best fullbacks, both offense and defense considered, in the past 25 years. Bob Ferguson, former Ohio State fullback, and Tom Myers, gifted Northwestern passer, both came from Troy, Ohio.

Vaughn wiped out Ferguson's high school records and now he's making Stapleton's views look good by leading the Big 8 in rushing.

His 138 - yard game against Kansas, pacing a 17-14 upset, boosted into the top spot with 364 yards in 72 trips. Gale Sayers of Kansas is second with 341 yards in 58 carries. Willie Ross of Nebraska has 287 yards. Bill Harris of Colorado 281. Rudy Johnson of Nebraska 251 and Grisham 206.

"If Vaughn were playing on a top team like Oklahoma, he'd be named All America for certain"

Stapleton said. "He often plays 50 minutes or more, yet always makes the big play for you offense and defense. He's as fast as anyone in the league and has power with it."

Stapleton recalled how the 5-foot-11 203-pound Vaughn saved the game by catching Ron Oelschlager of Kansas on a 65-yard pass play in the last minute.

Gary Lane, Missouri's talented rookie quarterback, took over the lead in total offense at 397 yards with a big day against Kansas State. Lane, a fast runner and good passer, has 140 yards on the ground. Steve Ren-

ko of Kansas stayed on top in passing with 334 yards and is second in total offense with 392 yards, 23 more than Nebraska's Dennis Claridge.

Larry Corrigan of Kansas State is second in passing with 286 yards, Claridge third at 281 and Lane fourth with 251. In pass receiving, Dick Limerick of Iowa State has 4 catches for 204 yards, Ralph McFillen of K-State 14 for 178 and Sayers 9 for 17.

Harris leads in scoring with 30 points, K-State's Doug Dusenbury in punting with 424, Virgil Boll in punt returns with a 19.3 average and Vaughn in kickoff returns with a 53.5 average, one a 90-yard run. In team figures, Nebraska

## Work Release Plan For Some Prisoners

By ADRIAN W. SYBOR

BALTIMORE (AP) — An advertising salesman clears his desk at the end of the day. South of town, a construction worker borrows his employer's pickup truck for a 6-mile drive.

A laborer in a nearby quarry telephones to say he will be late — he must work overtime again.

All three are serving prison sentences. They are participating in Maryland's new work release program for prisoners.

There are 19 prisoners — 16 men and 3 women — taking part. They include truck driver, farm hand, kitchen worker, laundry worker, nurse's aide, clerk, construction worker and mechanic.

Their offenses include robbery, burglary, housebreaking, larceny, assault, domestic cases and fraud. The prisoners spend their nights in seven of Maryland's nine correctional institutions.

James Curran, commissioner of the Maryland Department of Correction, says the offenses of the participants often are misleading. "They are only labels," says Curran. "Most of the time there are extenuating circumstances."

Only narcotics and sex offenders are excluded from the program.

The program began under a law introduced by Democratic State Sen. Edward O. Weant Jr., and passed this year by the general assembly. The first participants arrived on the job July 1.

Only North Carolina has similar statewide program, created in 1957, although Wisconsin authorizes local jails to operate their own work release program.

About 2,000 of Maryland's 5,600 prisoners are trustees and work each day, weather permitting, outside the prison. But they wear prison uniforms and are under supervision and guard.

It's a different story for the work release prisoner. He leaves the prison without supervision and wears whatever clothes are appropriate for the job. The ad man, for instance, changes into a suit.

Some walk to work. Others ride public buses. Sometimes the employer provides transportation.

"Our ultimate goal," says acting director Frederick E. Terrinoni, "is to get the prisoner paroled." He says the work release program "teaches the prisoners to accept and learn obligations."

To be eligible, the prisoner can be serving a term of no longer than five years. Curran estimates that 90 per cent of the 4,000 prisoners committed each year fall into this category.

The inmate is not eligible until he has served six months. Then he must volunteer and must provide the name of an employer who will hire him.

Employers are required to pay the prevailing wage. They must notify the prison if they want the

inmate to work overtime, and they must telephone the prison if the inmate doesn't appear for work in the morning.

The law requires the prisoners to help support their dependents. They also pay the state \$2.50 per day for room and board in prison.

What's left is paid back to the prisoner when he is released.

Before the end of the year, the first of the work release prisoners will go before the parole board. Terrinoni says, "We hope the board will be disposed to granting them paroles," noting that one of the work release prisoners is a parole violator.

Employers seem to like the plan. A construction firm, troubled because employees failed to appear for work on Mondays, commended an inmate working for it because of his good attendance record.

An insulation mechanic has been made foreman of a crew of men. When Terrinoni visited the ad salesman, he found the inmate in charge of the office while the employer was away.

### Hal Boyle's Column

## A Dog Named Orval Gives Writer, Wife Hard Time

By WICK TEMPLE

(Substituting for Hal Boyle)

LITTLE ROCK, Ark. (AP)

—You get a frantic phone call at the office from your extra

frantic wife, who says, "Well, they just got Orval."

In addition to anger and concern, you are filled with curiosity. The methods "they" might use for getting Orval are important because you have never been able to get him yourself.

"How did they get him?" I asked.

"They shot him. He has three bullet holes in his side."

You are enraged. You call the sheriff and get him on the way to extract three bullets from the side of a brown and tan, sway-backed, cross-eyed, lop-eared, bow-legged dog who should have happened to someone else.

It turned out Orval hadn't been shot. The vet said he had been in an argument with another dog. Seventeen stitches put him back together and ran his repair bill past \$50.

Two weeks earlier he had caught a Volkswagen. After stitching, he appeared to have been cut in half and put back together, and he still looks that way.

Orval spent his first six months as a free agent in Gay Woods. Finally he made his way to the city and was about to be impounded when we gave him refuge. He made a fine pet. He was gentle and playful. But he never lost the wildness of his youth.

A backyard fence (no small purchase) wouldn't hold him. He dug under until we had to reinforce the base of the fence with logs.

Then he learned how to paw open the back screen door, dash through the house, throw a body block on the front screen door, and roll clear. Once he was out, he paid no attention to calls and he was impossible to catch.

I consulted the vet. He decided Orval had emotional problems, brought on by lack of proper upbringing. He suggest-

## Red Space Woman Denies Engagement

NEW YORK (AP) — Maj. Yuri Gagarin and Valentina Tereshkova, first man and only woman to orbit the earth, arrived Tuesday night by plane from Mexico City for a one-day visit.

The first question put to the Russian cosmonauts was about reports that Miss Tereshkova was engaged to cosmonaut Pavel Popovich.

She blushed, giggled a bit and wagged her finger at the newsman.

"I'm not engaged," she said, "but when I get married you will definitely find out."

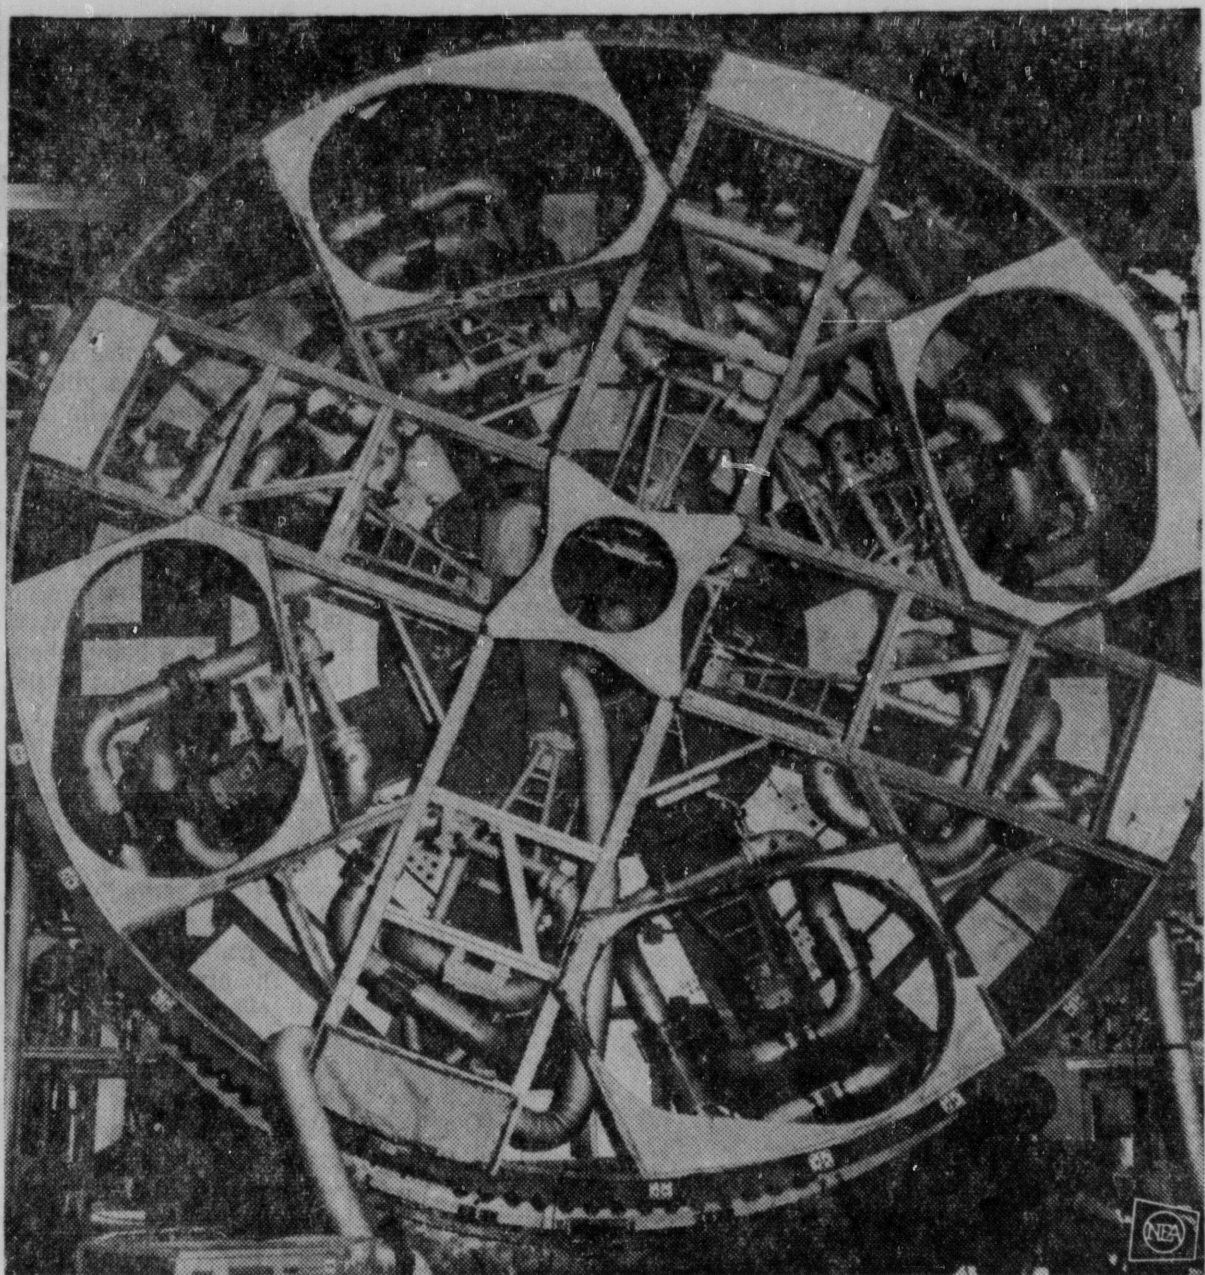

## English Farmer Puts Sheep In Clothing

CASTLE CARROCK, England (AP) — Farmer William Wilson is putting his 3,000 sheep in sheep's clothing for the winter.

The sheep are being clad in special coats of jute sacking, made to Wilson's design at 70 cents each at an Edinburgh factory.

He whipped up such coats to protect the best sheep of his flock during last winter's severe weather and liked the results.

"They not only keep the sheep snug and warm," he said, "but they make the fleece thicker and softer."

THREE MEN ON A SPACE WORKHORSE—Three men are at work somewhere in this picture. Can you find them? When you do, you'll have a good idea of the size of the giant S-I booster stage of the Saturn I space vehicle being built by Chrysler at the new Michoud facility in New Orleans. The three technicians are checking the maze of tubing involved in the fuel supply and control of the eight rocket engines. When completed the S-I will have 7,500 feet of tubing in 1,200 parts, 50 miles of wire in 24,000 parts, 245 valves, nine tanks and eight engines. Where are the three men? One is poking his head out of the center opening, one is standing on a strut just to the left and the third is entangled in some tubing just above and to the right of the first two.

## GRAND OPENING TOMORROW!

Come in and get into a Volkswagen.

Sedans, station wagons, trucks and Karmann Ghias—we'll have them all at our Grand Opening tomorrow, doors open and ready to go.

Come in. Take one out for a demonstration drive.

Things you'll notice along the way: VWs are rattle free, easier to handle in traffic, park in little space. VW station wagons, for example, are 4 feet shorter than standard wagons, yet roomier inside than any standard

wagon you can buy—yet cost hundreds of dollars less.)

Back at the showroom, ask about the VW engine in the rear that will go all day at top speed without strain. It's air-cooled. Can't boil over or freeze.

Ask to see the parts and service department. Nothing can happen to any VW car or truck that we can't fix.

Then, ask to see figures on what any VW costs to run.

Grand Opening celebration — 9 a.m. to 9 p.m.

## Epsilon Beta Stages Model Meet Monday

Epsilon Beta Chapter, Beta Sigma Phi sorority, met at the home of Mrs. Delmer Gann, 2300 East 15th, Monday night for a model meeting.

Plans for the annual bazaar and card party were discussed. This year the donation will go to the Center for Retarded Children, under the direction of Mrs. Byron Pelcher. The school is located at Ninth and Kentucky, and is not connected with the Children's Therapy Center or public schools. Although state supported, the institution is allowed to receive gifts.

Plans for the Christmas and New Year's parties were made. The meeting was presided over by Mrs. Fred Hill.

Refreshments were served by the hostess, assisted by Mrs. William Jarrett.

### Town Meet Accomplished Via Telstar

By CYNTHIA LOWRY  
AP Television-Radio Writer  
NEW YORK (AP) — What must be one of the historic events of television took place Tuesday with the "Town Meeting of the World."

To accommodate Telstar II it was shown at 8:30 a.m., EDT, but CBS, American host of the hour long program scheduled a 7:30-8:30 Wednesday night rebroadcast.

Four eminent churchmen sat down together, electronically speaking, to discuss what CBS called "The Christian revolution."

In Rome there was Cardinal Rugambwa of Tanganyika and a Catholic writer, the Rev. Hans Kung of West Germany. From London came the Right Rev. Leslie Newbigin, a Presbyterian who is head of his church in South India. From Princeton, N.J. Theological Seminary came the Rev. Dr. Franklin Clark Fry of the American Lutheran Church.

Telstar was temperamental throughout the program and on several occasions the sound was lost from Rome.

The big questions raised, many involving Christian unity and the population explosion, sounded controversial but the answers were never heated. Sometimes the answers left viewers-unsatisfied but it probably was a combination of language problems and Telstar's behavior.

But as moderator Eric Sevareid noted during the broadcast, the interesting and inspiring thing was that an "artificial star" had formed a bridge which brought Catholics and Protestants together as millions of lay persons were privileged to listen in on their talk.

Richard Boone's recent automobile accident disrupted, along with his own NBC series, this week's "Password" plans. The CBS game show, taped recently in Hollywood, had booked Boone for its day-time panel along with Jane Wyatt.

When Boone was unable to appear on the Monday and Tuesday shows, host Allen Ludden joined the panel while announcer Jack Clark took over Ludden's job. As a player, Ludden committed all of the sins which he, as moderator, frowns upon. He used his hands to amplify clues and once threw out a two-word clue which brought a reprove from the judges.

That CBS "Judy Garland Show" should be equipped with swinging doors, the traffic coming and going is so heavy. Now director Bill Hobin has given his notice and Jack Carter has been added as the show's official funnyman, replacing Jerry Van Dyke.

### Tunnel Explosion Takes Heavy Toll

BOGOTA, Colombia (AP) — An explosion killed 2 workers and injured 29 others in a tunnel at a construction site about 20 miles west of Bogota Tuesday. Twenty other workers were temporarily trapped in the tunnel, but were later rescued.

The explosion was believed caused by an accumulation of natural gas. The tunnel is part of a hydroelectric project.

### Man Is Shot While Rushing to Put Out Fire In His Home

ATCHISON, Kan. (AP)—Mike Ball, about 40, was sought by law enforcement officers today for allegedly shooting John Tull, 28, as Tull rushed to put out a fire in his small farm home.

Tull, struck in the head by a rifle bullet, was reported in serious condition in a hospital. Sheriff Al Hinson said Tuesday night no charges had been filed pending an investigation by the county attorney.

Carl J. Tull, a brother, said John lives in St. Joseph, Mo., but operates a farm 5 miles south of here. He said John leases part of his land to Elzie Zacharias of Atchison an automobile wrecker.

As the Tulls were driving out to the farm Tuesday afternoon, Carl said, a fire Zacharias had set to burn some old car bodies had spread to the house and was threatening Ball's land.

John Tull was shot as he ran from the car toward the fire, Carl said.

### 160,000 Hunters Expected For Colorado Season

GRAND JUNCTION, Colo. (AP)—More than 160,000 hunters will prowl the mountains of Western Colorado Saturday as the state's deer and elk season opens.

At least half the hunters are expected from other states. Traditionally, Texas furnishes the largest contingent and California is next. Other sizable groups are expected from Oklahoma, Missouri and Kansas.

The deer crop is large, but Rangers said the hunters will have to work to get their kills unless a sudden stormstorm sends herds down from the mountain tops.

Most of the deer are above the 9,000-foot elevation because of dry weather.

The big game hunting season opens east of the Continental Divide a week from Saturday. The regular season winds up in both places Nov. 7.

Residents of other states will

### P-C Plans Plant In Belgium

The Pittsburgh Corning Corporation has announced plans to build a plant in Belgium to produce its Foamglas insulation.

The plant, which will enable the company to better serve the rapidly growing European market, will be built in Tessenderloo, approximately 25 miles from Brussels. It will be operated by a wholly owned Pittsburgh Corning subsidiary, under the name, Pittsburgh Corning de Belgique S. A.

In addition to manufacturing facilities, the company will construct a large warehouse at the site. This warehouse will be completed in February of 1964, and stocks of Foamglas will be available for immediate shipment from Tessenderloo at that time. It is estimated that the plant will begin operation in 1965.

Consulting engineering and structural design for the new plant is by Rust Engineering of Pittsburgh, Pa.; Coppee-Rust of Brussels, Belgium, will act in a similar capacity at the job site, in addition to furnishing job supervision.

Foamglas insulation is a rigid glass foam which combines a number of especially desirable insulating characteristics since it is unaffected by moisture or acids; has exceptionally high compressive strength; and is vapor proof. It is widely used in the roofs and walls of commercial buildings; on tanks, piping and process vessels in a wide variety of industries; and in cold storage and freezer buildings.

Sales of the material to the European market have increased substantially in the past several years, leading to the decision to construct manufacturing facilities on the continent.

pay \$40 for the privilege of bagging one deer, then can get a second license for \$7.50 and can shoot a third deer free, provided they pick areas where multiple kills are allowed.

## BOYS CLUB NOTES

Roger Carter is a new member of the club.

In the weight lifting class two newcomers made fine lifts in the Saturday workouts. Emerson with a left hand snatch handled 120 pounds while Alexander equaled this lift with a two hand press. There have been some excellent lifts in the class to date and instructor Gordon Strain is well pleased with the work of the boys.

About 12 boys and an adult instructor made a hike to the vicinity of Goodwill Chapel. Lunch of hot dogs and pop was enjoyed and the boys returned home, resting at Centennial Park on the return trip.

Boys are practicing for the coming pool tournament. The tournament will be held in two classes for the medium size tables and the standard size. Sterling Howard has been showing shooting ability in the medium class.

Free throwing is an event that is attracting attention at the club in preparation for the free throw contest which will be held as well as the spot shot contest.

Ralph Walker of the Boys Club of Chicago and Eugene Sullivan also of the Chicago office will visit the club and attend the Boys Club board meeting which will be held at the club and will also remain in Sedalia Thursday.

## Writer Visits Forward Unit In Mekong River Delta Area

By EDWIN Q. WHITE  
AP CO CO, Viet Nam (AP)—Come along for lunch in the headquarter building of the outpost defending this village deep in the Mekong Delta area of South Viet Nam.

In one corner of the room is a two-way radio embedded in a concrete wall in effort to keep it from being taken by Communist Viet Cong attackers. In another corner is a boa constrictor. The snake is a baby, about four feet long, a pet kept by the men of the unit.

The food for lunch, a blend of Vietnamese and Chinese, is good. There are chicken, beef, pork and vegetables in various mixtures, and boiled rice. The local beer is served with cracked ice.

The conversation is interesting. The province chief tells you that every night the outpost sends most members of its two 30-man platoons out on patrol against Communist guerrillas.

The men of the post, who gravely salute every visitor, civilian and military, proudly display their weapons and equipment. Many of them have families here with them, living within the circle of barbed wire, earth embankments and sharpened bamboo stakes that surround the post.

Pictures of President Ngo Dinh Diem and members of his family and government hang on the walls of the headquarters, but the talk is of the fight against the Viet Cong, the trading in the market, the rice crop not of politics or high policy matters.

Outside the headquarters hazardous wooden stairs lead to the watchtower. There a young Vietnamese clutching a carbine and another with a portable field ra-

dio look out over the flat, wet land of the delta.

Workers are in the fields, villagers file down the muddy road, and the canals and rivers are busy with traffic.

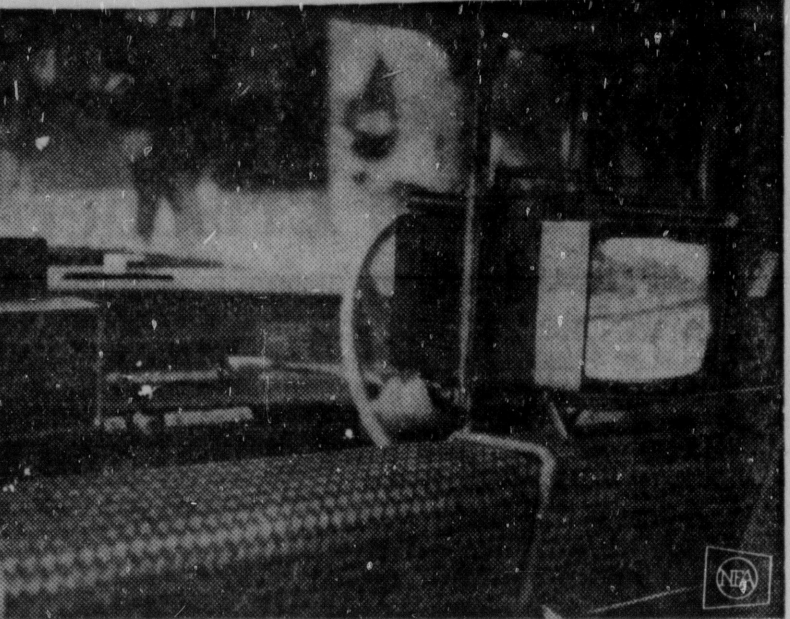

A motorized fishing boat chugs by, flying the flag of the Republic of Viet Nam. A U.S. officer says that a few hundred yards downstream that flag probably will be hauled down and the colors of the Viet Cong, a yellow star on a red and green background, run up in its place. Living among, and with, both sides is nothing new here.

A couple of visitors decide to take a walk. Two self-defense corps men with rifles tag casually along. They wade through the mud past a Chinese merchant's shop, where a surprising variety of household articles, clothing and sundries can be found.

A narrow footbridge takes the strollers across a canal. Suddenly a machine gun opens up along the river.

Friendly or unfriendly? No one seems to know, but the province chief hurriedly suggests that the route of the walk be changed.

It is, back along a path that leads to the outpost. Inside, the boa stirs sleepily in the midday heat. The watchtower guards look out over the flat, wet land of the delta.

TRANQUILIZER—Television sets are getting a trial run in some taxis in Tokyo, Japan. To take the passengers' minds off the suicidal driving in Tokyo's fantastic traffic, perhaps.

# New Navy Secretary Could Set Congressional Powder

By JACK BELL  
AP Political Writer

WASHINGTON (AP) — President Kennedy's appointment of a new Navy secretary may set off a chain reaction leading to congressional explosion over a tentative Pentagon decision to deny the Navy any more nuclear carriers.

When Paul H. Nitze, named Monday to succeed Fred Korth, comes before the Senate for confirmation, it seems certain he will be asked for his views on the continuing controversy over whether carriers should be phased out in favor of missiles and missile-firing submarines.

Korth, who said he was resigning to "attend to my pressing private affairs," probably will be asked to explain if his decision had any connection with his apparently futile efforts

to get a new nuclear carrier built.

Associates said his defeat in the nuclear power argument sped his decision to quit.

Some Congress members said they thought Korth's action stemmed from the row over the controversial TFX warplane contract award, and Sen. Carl T. Curtis, R-Neb., said Korth will be questioned again about it.

Korth has told the Senate Investigations subcommittee headed by Sen. John L. McClellan, D-Ark., that a bank he formerly headed in Fort Worth, Tex., joined several others in making a loan to the General Dynamics Corp.

General Dynamics was given the TFX contract by Secretary of Defense Robert S. McNamara despite a claim by the Boeing Co. that it could produce the TFX — tactical fighter, experimental — cheaper. Korth supported the award to General Dynamics.

McClellan declined comment on the resignation. But Sen. Gordon Allott, R-Colo., said he thought it was precipitated by testimony on the plane contract.

"I predict there will probably be other resignations," he said. He gave no names.

Senate Republican Leader Everett M. Dirksen said he thinks there will be no serious opposition to confirmation of Nitze, who now is assistant secretary of defense for international affairs. He was named to the post by Kennedy in 1961.

The nomination of Nitze, 55, will go to the Senate Armed Services Committee.

In announcing the Navy switch the White House disclosed that Korth wrote his resignation last Friday—the same day he persuaded McNamara to reconsider a tentative decision against permitting the Navy to install nuclear power rather than conventional engines in its new supercarrier.

Kennedy praised Korth in a "Dear Fred" letter accepting the resignation. Nothing was said about the carrier question. But informed sources made it clear that Korth had slight hope McNamara will reverse himself.

Nitze, a former partner in the Wall Street investment firm of Dillon, Read & Co., entered government service in 1940. He joined the State Department in 1946 and served as director of its policy planning staff from 1950 to 1953.

# First Night Opera Dream Thrills Many

NEW YORK (AP)—Thousands dream of attending opening night at the opera, and the dream came true for many Monday night.

It came true for Birgit Nilsson, whose soprano voice has been heard many times at the Metropolitan, but never on opening night.

It came true for scores who had waited in line a night and a day to get standing room for Miss Nilsson's triumph as the Egyptian slave girl in Giuseppe Verdi's "Aida."

And it came true for Attilio Vitali, who works for a bank in Rome. When he appeared on a television program called "Fair of Dreams," he was told that if he won the prize he could realize his fondest dream.

He won, and his fondest dream was to attend opening night at the Metropolitan Opera.

So Monday night, Vitali, his wife and son were in the audience, along with U.N. Ambassador Adlai E. Stevenson, U.N. Undersecretary Ralph Bunche, President Kennedy's sister, Mrs. Stephen Smith, and much of New York society.

"Very different from the opera in Rome," Vitali said, "but magnificent."

"Magnificent" was the word most listeners used for Miss Nilsson, who won an ovation, and for new settings and costumes designed by Robert O'Hearn.

Miles A. Smith, Associated Press arts editor, found Miss Nilsson's "tremendous voice carried a richer coloration and warmth than it sometimes has in the past," and described the production of "Aida" as overwhelming.

It was the result of a first in Met history—a corporation gift which paid almost all the \$150,000 production cost. The American Export and Isbrandtsen Lines put up the money.

At intermission, in the exclusive Metropolitan Opera Club on the grand tier, the Met's general manager, Rudolf Bing, and his wife chatted with their box guests—Stevenson, Dr. and Mrs. Bunche and Mrs. John D. Rockefeller Jr.

At a nearby table Mrs. Smith and her husband sipped champagne with actress Julie Harris, her husband, Manning Guran, and their hosts, Mrs. and Mrs. Roger L. Stevens.

The performance brought bravos to the cast of almost 300, and especially to Carlo Bergonzi, Irene Dalis, and Mario Sereni.

It put more than \$100,000 into the box office till, an opening night record.

**FASTEST GUN IN THE NAVY**—In only four seconds, all the shells (887 of 'em) shown being loaded, left, could be fired from this Navy A-4 Skyhawk jet. The three pods under the plane are not fuel tanks but a new aerial weapon system developed by Hughes Aircraft. It consists of three 20-mm cannon capable of firing armor-piercing shells at a rate of 12,600 rounds a minute, making it the

Navy's "fastest gun." Right, a tank is blasted during a test on the Mojave Desert ranges of the Naval Ordnance Test Station at China Lake, Calif. A burst as short as one second against a target equals the destructive force of a 4,000-pound object dropped from 1,000 feet. Black specks are expended shell casings, falling from the jet's cannon by the hundreds.

# Indian Squaws Use Extract As Birth Control

FORT COLLINS, Colo. (AP)—Shoshone Indian squaws know what they are doing when they drink a cold water extract as a birth control measure, two professors say.

The National Institutes of Health awarded a \$27,000 grant Monday to the professors, Gestur Johnson and Stanley Sunderwirth, to continue their study for three years.

Sunderwirth and Johnson said the squaws drink the extract from roots of the lithospermum ruderalis plant to reduce fertility. The plant grows in mountainous areas of Colorado.

Sunderwirth and Johnson, on the staff of Colorado State University, said biological effects of oxidized acid from the lithospermum result in "inhibition of ovulation in the laying hen and inhibition of ovarian growth in the immature female rat."

WASHINGTON (AP)—In the news from Washington:

**ECONOMIC OUTLOOK:** Despite a drop in unemployment during September to 3.5 million, there was no basic change in the job outlook over August and little change is expected next month.

A Labor Department spokesman said Tuesday that a 500,000 increase in employment and a drop in unemployment of 350,000 were caused mainly by seasonal factors as schools reopened and automobile plants

tooled up to put out the 1964 models.

The unemployment rate remained at 5.6 per cent after seasonal adjustment.

**DOMINICAN:** The United States has denied charges by the Dominican Republic that it is interfering in the internal affairs of the Latin-American nation.

Dominican representative Jose Antonio Bonilla told the Organization of American States Tuesday that U.S. Charge d'Affaires Spencer King had suggested the ruling military junta turn over its power to Dr. Juan Casanova Garrido, president of the Dominican state.

Garrido claims he is the right-

ful successor to Juan Bosch, deposed as president by the Junta.

Ward P. Allen, alternate U.S. representative to the OAS, rejected Bonilla's charge.

By THE ASSOCIATED PRESS

WASHINGTON (AP) — In the news from Washington:

**GOING UP:** Picking up more steam during the summer, business expansion has apparently reached a record rate of national output exceeding \$587 billion a year, government sources report.

The gains in the summer quarter surprised the President's Council of Economic Advisers and were the basis for Chairman Walter W. Heller's prediction last week that national output would top the \$600-billion-a-year mark early in 1964.

The third-quarter rise was believed to have been greater than that of the first half of the year which averaged a bit better than \$7 billion a quarter and brought the production rate close to \$580 billion in the April-June quarter.

The council now is reported to be confident the expansion will continue to the spring of 1964.

**WHEAT DEAL:** A wheat state senator has suggested that the Senate Foreign Relations Committee take a good look at Soviet purchases of U.S. wheat, and weigh the benefits here against the benefits there.

Sen. Karl E. Mundt, R-S.D., asked in a newsletter to his constituents:

"Does the benefit to our country and to the free world pale to

insignificance as compared to the benefit realized by the Soviet Union through receipt of a sorely needed commodity to shore up its economy at the weakest point and to allow the Communists to avoid diverting efforts from a variety of tactics, such as subversion, infiltration and guerrilla warfare, aided at world domination?"

Last week President Kennedy gave the go-ahead for sales of American wheat to the Russians by private U.S. dealers.

### Who Pays? The Taxpayer!

"Where do we get the \$100 per day to pay the fines if the Missouri Water Pollution Board sees fit to prosecute the city for polluting streams?" was a question asked Monday night at the public meeting on the sewer bond election scheduled for November 12.

In the hubbub of murmurs from the audience the question was not formally answered as the meeting reached adjournment after an animated and intelligent consideration of the problems involved in Sedalia's deficient sewage treatment plants.

The answer to the unanswered question seems simple enough. The city's source of money is the taxpayer. All the expenses of departmental operations are paid with money collected from the people of the community in the form of taxation.

If the incorporated City of Sedalia elects to violate any state law, the state surely has some legal recourse to levy penalties through court procedures, if necessary. If anyone thinks the water pollution board is trying to run a bluff on this fine business, he'd better reevaluate the situation.

One thing we do know, the state board has authority to restrict any more sewer tie-ins. We have evidence of that already. But, some one may say, this isn't going to cost Sedalia anything. Don't you believe it. It is going to cost everyone in the building trades to the extent if continued long the whole economy of Sedalia will suffer from the impact. Who pays? Employer, craftsmen and laborer — the same fellows who are also going to

ultimately pay the fines assessed, if any, against the city.

If Sedalia has to assume the burden of daily cash penalties the city is in no financial position to pay them this year or next year or any year on the basis of the present tax rate. So where is the city going to get the money? Borrow it maybe, or float a bond issue to pay for nothing but fines? No, the most likely device will be an increased tax rate—again to pay for nothing. And this money, as everyone knows, will simply come out of the taxpayer's pocket. In that case it will be more than nothing. It will also be ridiculous.

More ridiculous will be the defeat of the sewer bond issue next month. And those courageous taxpayers who would rather pay fines than vote for sewage treatment plants had better start thinking about another aspect of the situation.

Just as soon as the state water pollution board legally moves against Sedalia for violation of the law, what do you think those property owners along Pearl river from here to Georgetown and beyond are going to do? They will have to be mighty neighborly to put up with the polluted stream and certainly charitable if they don't band together and plaster the City of Sedalia with a damage suit for a sum that will raise the hair on the head of every taxpayer who will also have to pay that enormous penalty too.

Not such bright prospects, eh, for a community that has every reason not to let such eventualities occur if they will only get out election day November 12 and vote in favor of the sewer bond issue.

GHS

### Washington Merry-Go-Round

### Nazi War Criminal Still In California

By DREW PEARSON

LOS ANGELES—At Surfside, California, not far from Long Beach, lives very quietly a man officially charged with instigating the death of 760,000 Orthodox Serbs and over 60,000 Jews.

He is Andrea Artukovic, frequently called the "Himmler of Croatia," who was minister of the interior for the Nazi Croatian republic under Hitler during the war.

Artukovic's case becomes important at this time, first because the man who finally forced him to flee Croatia, President Tito of Yugoslavia, arrives in the United States today; second, because the U.S. Supreme Court has just set an important precedent in the case of ex-dictator Perez Jimenez of Venezuela, that an exile charged with crimes against his own country must return to face trial.

Artukovic has previously been ruled deportable because, among other things, he entered this country from Ireland under a false name, Aloys Anich. However, the Immigration Service has stayed his deportation on the ground that he would be subject to persecution if forced to return to Yugoslavia. But under the court's ruling in the Perez Jimenez case, Artukovic is now definitely deportable.

Artukovic is a Catholic. Hitherto, he has been able to get strong Catholic support, especially from the former supreme knight of the Knights of Columbus, Luke E. Hart. Hart, together with various Croatian exiles, have tried to make Tito the persecutor of religious minorities.

#### The Vatican Protested

However, the record shows that the Vatican, plus many of the Catholic bishops in Yugoslavia were deeply shocked over the wholesale murder of Jews and Protestants under the direction of Artukovic when he exercised police power over Nazi Croatia.

Artukovic set up a "Central Office for Jewish Affairs" and on April 30, 1941, only twenty days after Hitler took control of Croatia, issued a decree "on racial affiliation" defining those persons who were considered Jews, and on the same day issued a decree on "the protection of Aryan blood and the honor of the Croatian people."

There followed a long list of decrees, all signed by Artukovic, and a series of ghastly wholesale extermination by burning, mass burial, throwing people over cliffs, so that six months later, on Nov. 7, 1941, the Catholic bishop of Mostar wrote to Archbishop Stepanic:

"The Stozerniks and Logorniks (Croatian Nazi officials) have abused their positions. . . . The results have been horrifying. Human beings hunted down and caught like animals; they have been slaughtered; they have been thrown alive over precipices. The deputy mayor of Mostar, Baltic, a Moslem, said—he would do better to keep quiet and not say such things—that at Ljubljina in one day seven hundred schismatics (non-Catholics) were thrown into a pit.

"From Mostar and from Capljina, six railway truckloads of women, girls and children under eighteen were taken to Surmanci. They were all made to get out. They were taken into the mountains and mothers and children alike were thrown over a precipice.

"In the parish of Kipecl, seven hundred

schismatics from the surrounding villages were killed. It would take too long to give any more figures. In Mostar itself, hundreds and hundreds of schismatics have been bound and taken out of town and slaughtered like animals."

#### Conversion By Force

So wrote the bishop of Mostar. He added that the Italians, who were both Catholic and fighting against Tito and the allies, had intervened to defend the Orthodox Serbs and Jews.

"Small wonder if for these reasons," concluded the bishop, "the conversion of the Orthodox to catholicism has been a complete failure. . . . If the Lord had granted the competent authorities more understanding and the common sense to carry out the conversions with more tact and less violence, the number of Catholics could have increased at least 500,000 and the Catholics in Bosnia and Herzegovina would have risen from 700,000 to 1,300,000."

The "competent authorities" to which the bishop referred was Minister of Interior Artukovic, now residing under the protection of Attorney General Kennedy, himself a Catholic, in sunny California.

The bishop of Manjalka joined in the protest against "bestial cruelties" and "indescribable ferocity." Archbishop Saric of Sarajevo wrote: "The policy of the authorities is to convert as many Orthodox as possible, but unfortunately they are not setting about it the right way."

When word of these atrocities reached the Vatican, Cardinal Tisserant, secretary for the eastern congregation, condemned the operations of Croatian Catholics and the Croatian authorities as "unworthy of civilized human beings," while Archbishop Stepanic addressed an appeal to the Croatian Nazi regime asking for a stop to mass executions and asking for special treatment for Jews and Serbs who had entered the Catholic Church, and to exempt the Jews from wearing yellow arm bands.

It was at this period that Rep. John Blatnik, the courageous Minnesota congressman, parachuted three times as an OSS major behind the lines into the Croatian republic. One American officer who came down behind the lines was caught, however, and Artukovic's men stripped eight inches of skin off his stomach.

When the Yugoslav government requested Artukovic's extradition for trial as a war criminal, the State Department supported the request. After much tedious litigation the Supreme Court ruled him deportable.

However, the Justice Department has not acted. It is in the hands of Attorney General Kennedy to atone for the terrible atrocities against over 800,000 non-Catholics. With the mere signing of his name to a deportation order he can do so.

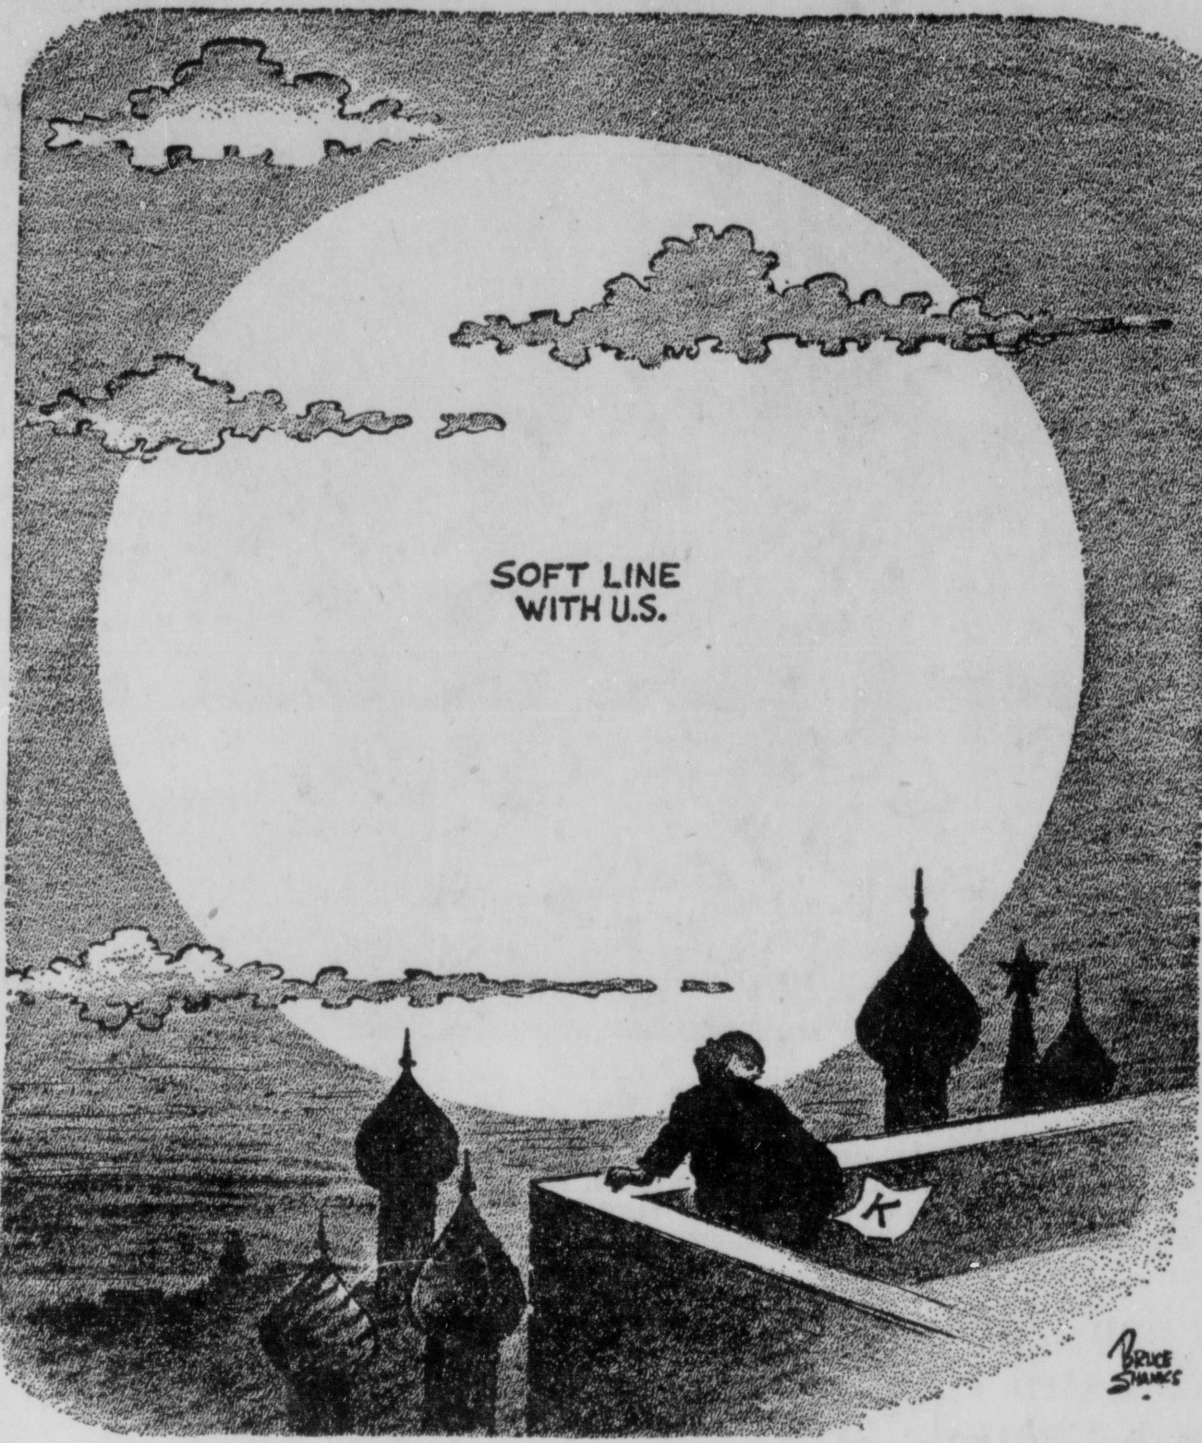

First state to pass a compulsory education law was Massachusetts, in 1852.

The motto of "E Pluribus Unum" first appeared on U.S. coins in 1873.

Hancock, Mich., is farther north than Montreal, Canada.

Ohio ranks eighth among states of the Union in total turkey production.

### Pay Raise for Everyone In Tax Cut

by J. W. DAVIS

WASHINGTON (AP)—Everybody would like to get a pay raise. That, in effect, is what the bill to cut federal taxes by \$11 billion would amount to — more take-home pay.

So, impatient taxpayers, weary of delay, may be excused for asking:

Why does the Senate Finance Committee have to go over ground already covered by the House Ways and Means Committee in nine months of work on the bill?

Why couldn't the Senate and House committees meet jointly, and whip the whole thing together at the same time? Or why couldn't the Senate committee go to its separate work in advance of House passage of a tax bill?

The answer to these questions is a combination of tradition, practicality and a bit of vanity on the part of Congress members.

Taking these things in order: Tradition — Legislation dealing with taxes has to originate in the House — the Constitution requires it — and senators traditionally have hung back until the House finished its work.

This has been true not only of the present Senate Finance Committee under Sen. Harry F. Byrd, D-Va., but also of committees in previous Congresses, under Republican as well as Democratic chairmen.

The Constitution does not say the Senate must wait until the House is finished, but that leads into the second explanation:

Practicality — Until the House Ways and Means Committee finishes its public and executive hearings, there literally isn't a tax bill in existence. The House hearings are held on the President's tax message, not a bill, and what winds up in the House

bill can be far different from what the President proposed.

Byrd and other chairmen have contended it would be a waste of time for the Senate committee to hold hearings on something that may not be in the House bill at all. Until the House sends over a bill, interested witnesses have no clear idea of what the Senate has to deal with.

The Senate acts as a sort of court of appeals for officials of the executive branch of the government and others who want to ask changes in what the House has voted. In this situation it makes sense to wait and see

what various interests might want to appeal.

Vanity and Prestige — The House Ways and Means Committee is a powerful one, and proud of it. Its members would hardly be eager to hold joint sessions with senators, as senators have something of a reputation for stealing the show when they get a chance.

There's still another important personal element in the present situation:

Byrd doesn't want a cut in taxes without assurance of a cut in spending and he's not one to be stampeded.

### We the Women

### Stinginess of the Heart

By RUTH MILLETT  
Newspaper Enterprise Assn.

Stinginess doesn't necessarily mean penny-pinching. A husband who is open-handed with money can still be a miser where consideration and appreciation are concerned.

You are a stingy husband if:

You never praise your wife for the things she does to make your home comfortable and pleasant.

You never give your wife any credit for the success you've made—making it quite plain you think you've done pretty well, when "We've done pretty well" would be a more accurate picture.

You never try to share your hobbies with her. Perhaps she would enjoy sailing or golfing if you gave her a chance to find out.

You seldom listen with any show of interest when your wife is talking about things that are important to her.

You never make plans for the kind of an evening out you know she would enjoy. Taking her along where you want to go isn't enough, you know.

You never give her credit for a good idea. It's surprising how many husbands are "stingy" in this respect. They remember it was her idea if it doesn't work, but forget whose idea it was if it turns out well.

You aren't willing to put yourself out once in a while to do things around the house when she wants them done.

When we speak of a "generous" husband we usually mean that he lets his wife have the things she wants — the things that she can show to her friends.

But a man can be generous in money matters and so mean in other ways that his wife would be happy to settle for a little less money and a little more understanding.

### The Mature Parent

### Discourage Materialism

By MRS. MURIEL LAWRENCE  
Newspaper Enterprise Assn.

Their 14-year-old camper had been living four girls to a cabin. At summer's end when they visited her, they discovered that she and two of her fellow campers were not "speaking" to the fourth girl. Asked why, their child explained that the outcast had complained about one of them to a counselor on the day camp opened. They raised fierce objections to the parents' proposal that the outcast be included in their luncheon invitation to the cabin group.

So they withheld the invitation.

Yet, an hour later, these same parents blew up at their child's demand for \$20. In my presence, the father exploded at her carelessness with money and required an accounting of her allowance expenditures.

Some wise people ascribe American children's disrespect for parents to the parents' "materialism."

These people's performance is exactly what such critics mean by "materialism."

What they chose to blow up about was not the vindictiveness shown by their child to another human being for the

period of two months. No! That they accepted! What aroused their indignation was her disregard of money. They passively condoned her part in the sustained group cruelty inflicted on another child and reserved their resistance for her demand for \$20.

They are typical of too many of us.

When Carol runs up the telephone bill, boy, how we can raise the roof. When Jeff has to be bailed out of a speeding ticket, how fast we are with the sermon on irresponsibility! But when it comes to the myriad forms of cruelty of the young in their thoughtlessness to each other, do we speak up? No, dear readers. We let it go.

That is "materialism."

I wonder what would have happened had those two parents, instead of meekly following their daughter's lead, had said, "No ma'am. If you three girls want to continue to punish Jane for tattling on one of you two months ago, that's your business. We do a different kind of business. We don't hold with such long punishments. So we are going to invite her to lunch."

I think respect would have grown.

### Polly's Pointers

### Nail Polish Is 'Cement'

by POLLY CRAMER  
Newspaper Enterprise Assn.

DEAR POLLY — Here is a helpful pointer for those who are constantly losing stones from costume jewelry. Just brush the pin, bracelet or earrings with clear nail polish. This keeps the stones from falling out and does not detract from the beauty of your jewelry.—D. D.

GIRLS — Several weeks ago a "pearl" fell out of my favorite earring and I reanchored it with clear nail polish. Have worn them nearly every day since and it is still tight. I see no use of covering the top of the stones with the polish even though they look just as bright and pretty. The important place is where they are attached to the metal.—POLLY

DEAR POLLY — My suggestion is especially for the elderly or the nearsighted who would enjoy a matinee movie but dread the sudden plunge into darkness after the daylight outside. Wear dark glasses all the way into the theater and until you are ready to go down the aisle. Then take them off and you can see clearly. You can march down the aisle with assurance.—MRS. B. P.

DEAR POLLY — Now is the time when folks will be thinking of putting away the children's plastic swimming pool. To get more use from it and to prevent the plastic from sticking together, dust it with plenty of cornstarch before rolling it to store away for the winter. You pool will give many more summers of enjoyment.—MRS. E. B.

DEAR POLLY — Mothers with toddlers will benefit from my suggestion when they go to the seashore. Take an old playpen and remove the floor. When the frame is placed on the beach, with baby in it, he is in a safe place, within reach and still can play in the sand like the older children.

—MRS. H. D.

DEAR POLLY — After our old metal breadbox had served its original purpose and was replaced with a new one, we enameled the old one inside and out and now use it for a tool box.—J. S.

DEAR POLLY — My washing machine is broken so last night

### Democrat Pick-ups

It was not a teenager, although he had his hair cut like one, who was out riding with his wife one evening and decided to try out the new pavement on north 65, going along at a good fast speed. The road before him looked nice and new and white, and he was having a real thrill as he rode along — then suddenly — like the man on the flying trapeze, he and his car and his wife were all flying through the air.

The new pavement came to an end and dropped down to the still unpaved part without a warning. His wife's purse sailed off of her lap and into the back of the car, she was scared — and, said the man who thought he heard the fluttering of angel wings, "I was too."

The car finally hit the road again down there some place on the unpaved section with a thump. He is only glad that he is still here to tell about it and that his car still runs. H. L.

### Guest Editorials

PHILADELPHIA BULLETIN: Is That Hobby a Hobby? — It used to be that you had a perfectly respectable hobby if you collected buttons or raised hybrid roses. But times have changed as could be seen at the New York exhibit of the Hobby Industry Association of America. This is a \$500,000-a-year industry supported by an estimated 50,000,000 Americans of all ages, and the exhibits presented were more scientific and educational than ever.

Kits of transparent plastic were very big, with charts for assembling such things as a human head with visible interior equipment. Complex electronic mechanical devices were offered with directions so complicated that reading of them would be almost a hobby in itself.

It's hard to argue against the coupling of hobbies and education, but it raises questions. In the old days, hobbies meant relaxation, and this relaxation was more important than intensity.

Now, apparently, you can become so strenuously engaged mentally in a pastime that people are apt to wonder what you do for a hobby.

rector of St. Augustine's Episcopal church, St. Louis, has resigned to accept a call to St. Clement's Episcopal church, St. Paul, Minn.

## AP Reporter Stops Smoking With Research Clinic Help

EDITOR'S NOTE: A month has gone by since AP Staff Writer Michael Keating and 59 other men attempted to quit smoking in an experimental clinic sponsored by Roswell Park Memorial Institute, New York State's cancer-research center. Here is Keating's third report.

By MICHAEL KEATING

BUFFALO, N.Y. (AP)—After 15 years and 109,500 cigarettes, I have quit smoking.

So have 29 other men—all of us taking part in an experimental stop-smoking clinic that bolsters will power with drugs and psychology.

The clinic has been under way for a month and I have not had a cigarette since it began. Desire for one is almost negligible.

### People In The News

By THE ASSOCIATED PRESS

LONDON (AP)—Has the royal fashion in dogs changed? Are Labradors in and Corgis out?

For whatever it's worth, Queen Elizabeth returned to London from her Scottish vacation and led two large black Labradors off the train.

The three Corgis who usually decorate the royal leash also were aboard the train, and they got a place in the palace limousine. But, alas, they were led from train to car by an attendant.

NEW YORK (AP) — Former King Umberto II of Italy has arrived for a cross-country tour.

"For many years I have cherished the hope of visiting America," Umberto told newsmen after he was greeted by Francis Cardinal Spellman.

ST. LOUIS (AP) — Kathryn Grayson has taken a week off from the road company of "Camelot" because of poor health and fatigue.

Jim Miller, manager of the company, said in St. Louis, "She has been ill and she gets very tired. We'd rather have her rest up for a week than collapse."

Understudy Jan Moody will substitute for the show's week-long run in St. Louis, but Miss Grayson is to return for next Monday's opening in Cincinnati.

## First Month Birthday For Famous Five

ABERDEEN, S.D. (AP) — It was wet and gray in Quint City USA—but the people turned out in droves to say "Happy Birthday" to the Fischer quintuplets.

An estimated 20,000 to 25,000 lined Aberdeen's main street Monday for a mile-long, hour and a half parade honoring Andrew Fischer, his wife, Mary Ann, and their newborn — four girls and a boy.

Six blocks from the noise and excitement of the biggest celebration ever staged in this farming community, the month-old quintuplets squirmed and kicked in their Isolettes at St. Luke's Hospital.

They had another weigh-in session and got measured for the first time.

Mary Ann, the smallest, weighed 3 pounds, 12 ounces and measured 16½ inches; Mary Magdalene weighed 4-10 and measured 17; Mary Catherine was 4-13 and 18½; Mary Margaret was 5-1 and 18½; and James Andrew 6-1 and 19 inches.

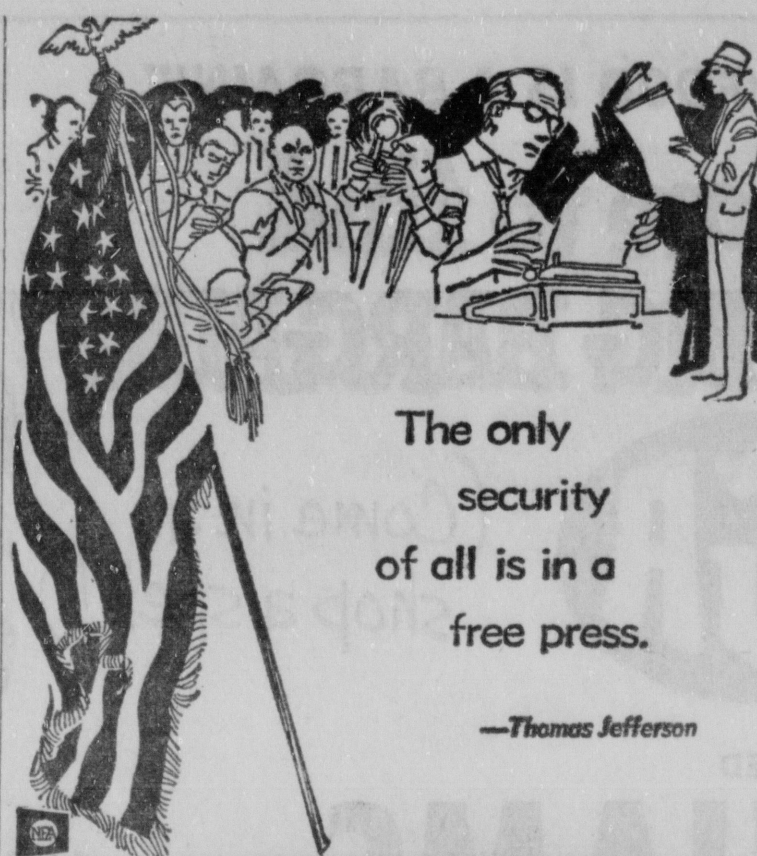

On main street, Andy and Mary Ann Fischer were the life of the party, along with their other five children — also four girls and a boy.

The Fischers followed a 300-pound birthday cake down the street. Trailing them was a stream of floats, bands and dignitaries.

During a ceremony at the Civic Arena, J. Howard Kramer, president of Northern State Teachers College, told the crowd, "Here today we must pledge ourselves to the wellbeing of the Fischers. To the question of what chance the quintuplets have for normal lives — if you mean security, happiness, childish fun — the answer is 'excellent.'"

It was evident, however, that the Fischer family would be leading far from ordinary lives. Crowds of children flocked around to get autographs.

Earlier, the Fischers were

The only security of all is in a free press.

—Thomas Jefferson

NATIONAL NEWSPAPER WEEK, OCT. 13-19

guests of honor at a reception and luncheon.

Among gifts they received were five gold medals sent by Pope Paul VI along with personal blessings.

Asked to make a speech, Fischer, who was an \$80-a-week clerk before becoming famous, quipped, "This is the greatest task I've had to undergo in the past 30 days. I'm not very good at speech-making."

The Fischers said "the help offered and given by so many persons came when our problems were almost overwhelming and greatly relieved our heavy burdens."

Mrs. Fischer told newsmen she longed for some quiet days. Her husband commented "So do I. I think we'll have them after awhile."

## Hat Makers Get Backing Of Kennedy

WASHINGTON (AP)—This is National Hat Week, and hat makers are throwing their soft felts, their sombreros and their high silks joyfully into the air.

For the National Hat Council reported today that Allan Webb, a hat salesman and a close friend of John F. Kennedy since their wartime PT-boat days, has gotten this presidential endorsement, "A man is not well dressed without a hat."

This may sound like a dubious victory, since President Kennedy rarely is seen wearing a hat, although keen observers occasionally spot him carrying one.

But a man from the council said reassuringly: "Kennedy wears a hat more than you might imagine."

And here he produced a picture of Kennedy, well hatted and well dressed. Unfortunately, the caption showed that the picture was taken while Kennedy was President-elect, which is quite a way back for celebrating National Hat Week 1963. But you can't have everything.

If the council is on uncertain ground with Kennedy, it is better off with his predecessors.

Pictures show Dwight D. Eisenhower beaming broadly from underneath a broadbrimmed hat . . . Harry S. Truman with a light colored semi-Western hat . . . Herbert Hoover wearing a hat almost jauntily . . . Franklin D. Roosevelt waving his hat gaily.

Indeed a hat was almost an FDR trademark, and the one he wore in his first campaign, sweat-stained and battered, was later sold for \$3,200 at a Hollywood benefit.

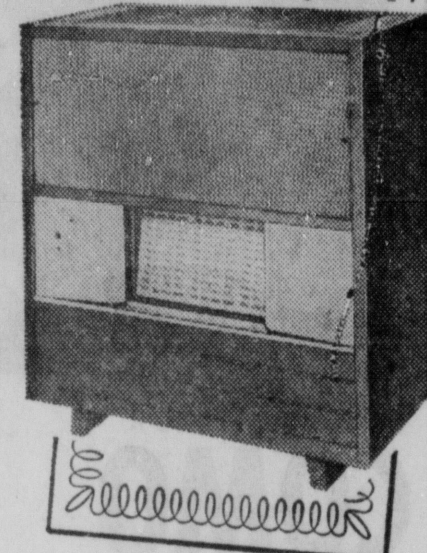

One thing seems clear from the old photographs: When campaigning, hats are great for waving purposes.
